Khrush Mutters Another Warning

MOSCOW (AP)—Premier Nikita S. Khrushchev warned the West today that any attempt to use force to reach West Berlin by land or air means war with the Soviet Union.

"No encroachments against East German territory, in the center of which Berlin is situated, can be tolerated—either by land, water or air," Khrushchev declared in a speech at Tula, an industrial center 120 miles south of Moscow.

Khrushchev said some Western statesmen "try to frighten us by saying if we prevent them reaching West Berlin, they would begin to shoot."

"But to everybody it is evident that if they begin to shoot, this will mean the beginning of war," the Soviet premier declared.

The speech, given Tuesday, was made public today by the Soviet news agency Tass.

The Western powers have proposed a Big Four foreign ministers' parley on Germany this

Ohio Highway Program Is Short of Cash

Another \$30 a Year May Be Required of Each Vehicle Owner

COLUMBUS, Ohio (AP) — Ohio is near the bottom of the barrel for highway construction funds. Gov. Michael V. DiSalle reports it will be necessary to find new money to keep the building program rolling.

So what's it going to cost the average motor vehicle owner if Ohio continues to build roads at the present rate?

About another \$30 a year.

Ohio contracted for about 370 million dollars' worth of roads last year. If the program is cut back to 300 millions this year, advances to 350 millions next year and jumps to 400 millions in each of the two following years, DiSalle estimates, it will require an extra 120 millions a year in new or increased taxes.

Since Ohio has about four million registered vehicles, each vehicle's share of the new tax burden would be about \$30.

Why the need for construction money?

Of the 500-million-dollar highway bond issue voted in 1953, only 58 million dollars remain. And, beginning this year, the state buckles down in earnest to the task of paying off the bond issue at about 45 millions a year for the next 13 years.

Where might the money come from to keep highway construction rolling?

DiSalle directed Finance Director James Maloon, Highway Director Everett S. Preston and Tax Commissioner Stanley J. Bowers to survey possible new tax sources for highway construction. The cabinet-level group came up with a package of six possibilities which, added together, would produce a little more than 100 millions a year.

A 2-cent-a-gallon gasoline tax increase to yield 58½ millions a year.

A 2-cent-a-gallon diesel fuel tax increase to yield about \$3,700,000.

A highway use tax on trucks which buy their fuel outside Ohio equal to the diesel fuel tax—estimated to bring in 3 to 4 millions.

An increase from \$10 to \$15 a year for passenger auto license tags to yield another 17 millions.

A 40 per cent increase in registration fees for trucks not covered by the axle-mile tax, estimated to produce another 15 millions.

An increase from \$1 to \$5 in the charge for three-year driver's licenses to bring in about 14 millions the first year, three millions in each of the next two years and 14 millions the fourth year.

Should Ohio float another bond issue rather than raise taxes?

DiSalle says not, adding: "We can't afford it. Interest on the 1953 bond issue will amount to 11½ million dollars."

"You can build a lot of highways with 111 million dollars. With federal matching at 90 per cent, it would build a billion dollars' worth of highways."

spring but have not said what action they would take if the Soviets carry out their threat to give East Germany control of Allied supply routes to their West Berlin garrisons.

There have been reports armed convoys or an airlift have been proposed to defy the East Germans, who already control civilian traffic to and from Berlin. The Western allies contend control of their military traffic is a Soviet occupation responsibility which the Soviets cannot transfer to the East German Communists without approval of the other three occupation powers. The Allies refuse to deal with the East German regime, which they do not recognize as a legitimate government.

Khrushchev indicated the Soviet Union would bulwark transfer of its occupation powers to the East German government by signing a World War II peace treaty with the Communist German regime.

The Soviet bloc he said, is prepared to sign a peace treaty with both West and East Germany—"or with one of them." If the Soviet Union signs such a treaty with East Germany, he continued, that nation "will acquire all the rights and obligations of a sovereign state."

"Any violation of East German sovereignty will be resolutely rebuffed, irrespective of whether this violation will be on water, on land or in the air," Khrushchev warned.

Khrushchev hailed as "worthy of attention" a call by Sen. Mike Mansfield (D-Mont) for direct unity talks between the East and West German governments and for a central European zone free of nuclear weapons.

Mound-Mingo Traffic Light Idea Dumped

City Council last night heard a hour-long discussion of traffic signals.

Councilman John Jenkins asked the solons to pass an ordinance calling for the traffic light at Mound and Mingo Sts., but the measure died for lack of a second.

Speaking to Council was Wilbur Cowell, Cincinnati, a traffic engineer. He demonstrated to the solons several different types of traffic signals.

He then recommended traffic lights at Mound and Mingo Sts., Atwater-Pickaway and Route 188 intersection, and the Nicholas Drive-Lancaster Pike corner.

However, when Jenkins asked Council to suspend the three-reading rule and pass an ordinance authorizing Safety Director Miller Fissell to install a light at the Mound-Mingo corner, the motion died.

JENKINS, who has been urging a traffic light at the intersection to protect school children, said he felt he was required to present the ordinance, although he was "only one east ender and there are four of you from the north end."

In the past Council has asked the safety director to install lights, although the safety director has authority to install them whenever he thinks it is necessary. Fissell has indicated he will not take the responsibility of installing a light, without the backing of Council.

WEATHER PICTURE SOUGHT — Here are preparations for the first U. S. meteorological satellite designed to give a picture of the weather, at Cape Canaveral, Fla. The experiment relies on two photo-cells (eyes) in the satellite, which can scan the earth's surface and cloud masses and relay back the data. The 20-inch, 21½-pound satellite carries a tape recorder which can be interrogated at every orbit. In addition, an interrogation radio receiver, a meteorological data transmitter, tracking transmitter, batteries.

New Satellite Flashing Back Hourly Data on Weather

WASHINGTON (AP) — America's newest earth satellite streaked through space today, flashing back hourly data that may open a new era in man's ability to forecast the weather.

Jubilant scientists at National Aeronautics and Space Administration headquarters reported that weather monitoring equipment aboard the 20-inch satellite was "working perfectly."

"We haven't found a single fault yet," a NASA spokesman said.

Although Vanguard II marks

one preliminary step in utilizing satellites for weather observation, Dr. Richard Porter, head of the U.S. satellite panel for the International Geophysical Year, called it "the beginning of a new era in weather research."

Assessments for property owners in Sewer District No. 1 were announced last night by City Solicitor Robert Huffer.

Huffer told City Council the assessing board has set assessments.

Property owners will have five weeks to file objections to the assessments, Huffer said.

A total of 664 properties in the district, in the north end, will be assessed.

Assessments on lots with houses adjacent to the sewer will be \$326.27. For lots without houses adjacent to the sewer the assessment will be \$300.

Assessments on lots without houses, not adjacent to the sewer will be \$100. There are 198 lots with houses, 129 lots without houses adjacent to the line, and 337 lots without houses and not adjacent to the sewer.

Last night Council, for the third time, passed as an emergency measure a resolution of necessity for the Nicholas Drive sewer,

which has been completed. Proprietary owners benefited by the project will have to be re-served with assessment notices. Next will come an ordinance to proceed with the improvement. Assessments then will be made, all taking at least two or three months.

The measure would not interfere with FEP enforcement agencies now operating in such cities as Cleveland, Toledo and Youngstown.

Other major legislative developments:

The Senate Finance Committee

recommended passage of a bill to

lift the \$65-a-month ceiling on aid

for the aged and the blind.

The measure would also remove the

present \$960-a-year additional in-

come limit, lift the present citizen-

ship requirement, boost the allow-

able value of the homestead own-

ed by a recipient from \$6,000 to

\$12,000 and shorten residence re-

quirements for aid from five to

three years.

A bill to require a quail-hunting

season of at least 10 days was sent

to a subcommittee of the

House Conservation Committee for

study.

The Senate Committee on State

Government recommended pas-

sage of a bill to prohibit horse

racing on Good Friday.

The House also received a bill

calling out the recommendations

of DiSalle that criminal conspira-

cacy be made a felony punishable

by a prison term of 5 to 20 years.

The measure to broaden the

state's unemployment benefits poli-

cy provides a benefit limit of 60

per cent of a jobless worker's

normal pay or 60 per cent of the

average weekly pay of all Ohio

workers covered by unemployment

compensation, whichever is lower.

Other major provisions would:

Increase the limit on the \$3

weekly allowance for dependents

from two to three, including a de-

pendent spouse.

Raise the minimum employer

contribution rate and the base

salary on which contributions must

be made.

Ike Says Allies To Start No Shooting in Berlin

DiSalle Calls for Statewide Modernized Health Program

COLUMBUS, Ohio (AP)—Gov. Michael V. DiSalle today called for a statewide public health program geared to present day needs. The proposals included one to establish a Health Department division to serve all municipalities.

The governor's message to the Legislature urged enactment of

proposals to:

1. Empower the Health Department to protect the public against the hazards of radiation from nuclear sources.

2. Simplify the merging of city and county health departments to strengthen programs in rural areas.

3. Authorize the health director to require immunization of dogs against rabies in epidemic areas.

4. Create a division in the Department of Health to combat alcoholism.

The governor has asked the State Water Pollution Control Board to set a deadline for compliance with abatement orders.

He said legal action would follow lack of compliance.

In all fairness to those who have halved or lessened stream pollution, the governor said, those who have not done so should be compelled to act.

"I feel the board has done an excellent job in getting co-operation," DiSalle said. But 71 firms scattered throughout the state have made no effort to co-operate, he added.

The governor commended the action of seven steel firms in constructing a half-million-dollar plant at Niles for treatment and study of acid wastes.

The governor said action is needed to obtain a program for adequate labeling of hazardous products used in homes, hospitals, schools and other establishments.

He said a program for state inspection of meats slaughtered in non-inspected facilities also is desirable.

Expanding on his message, DiSalle told newsmen he regarded water pollution control as one of the state's most pressing needs.

The governor has asked the State Water Pollution Control Board to set a deadline for compliance with abatement orders.

He said legal action would follow lack of compliance.

In all fairness to those who have halved or lessened stream pollution, the governor said, those who have not done so should be compelled to act.

The House, meanwhile, is expected to give resounding approval to a proposed general increase in the fees charged those individuals who use the services of county offices. The county fee bill, designed to give county governments a financial boost, is similar to the measure vetoed two years ago by former Gov. C. William O'Neill.

Three top Senate Democrats Tuesday introduced what they called organized labor's bill for a broad liberalization of Ohio's unemployment benefits system. It would increase benefits to a top of 60 per cent of average weekly earnings, extend the benefit period permanently from 26 to 39 weeks and ease many present restrictions.

Last night Council, for the third time, passed as an emergency measure a resolution of necessity for the Nicholas Drive sewer.

The measure would not interfere with FEP enforcement agencies now operating in such cities as Cleveland, Toledo and

Now They're Netting Stars

It was certain to happen. With the space program accelerating almost as fast as the speed of the latest rockets, it is mystifying those participating in the program haven't shown the strain before this.

The U. S. Air Force is the first to acknowledge the pace is too much for it. It is now going to try to catch satellites with butterfly nets.

"Project Hot Hand" is the name given to the program under which fliers are being trained to catch falling satellites with huge nets trailing from their planes. The Pentagon, perhaps red-faced at the vision of its warriors chasing objects with giant nets, has remained officially quiet on the subject, but enterprising newsmen have captured the story with their own nets.

Giant C-119 "flying boxcars" have been practicing for some months in preparation for the firing of a series of North-South satellite launchings scheduled at Vandenberg Air Force Base in California. These satellites, orbiting around the poles of the earth, will be in continual touch with instruments located at an Alaskan tracking station. Data on the height, speed and course of the objects will be transmitted to the waiting planes based on Hawaii.

As the satellite begins its downward trip into the atmosphere, if all goes as planned, it will sprout a parachute while over the vicinity of Hawaii. The net-trailing planes will attempt to catch the vehicle by continually traversing the area in ever-descending circles. Each of the planes will have about three passes at the satellite before it hits the ocean.

In the event none of the net wielders catches the prize, they will circle the landing spot until a ship or flying boat can retrieve it.

Tricky business, this, trying to catch a falling object with an airplane without getting it tangled in a propeller or wing. It may make some participants long for the days when the hardier men were roping cattle with lariats, not chasing satellites with butterfly nets.

Courtin' Main

A little jack can lift a car, but it takes a lot of jack to keep it up.

Season Tries Men's Souls

NEW YORK (AP)—This is the season that tries men's souls—and tempers.

Spring won't come and winter won't go.

Somewhere birds are singing and the sun is shining bright. But not here. If it ain't raining, it's snowing; if it ain't thawing, it's freezing. If the sky ain't clouding up, well—it's about to.

The milk of human kindness is frozen into an unfriendly icicle. The first robin, wearing a bright sunrise-colored vest, arrives on schedule.

But before this pitchman for warmer weather can sound his first note of cheer someone hits him with a snowball, and he comes down with sore throat and a virus. But he's in good company. Anyone who doesn't have a virus is an exhibitionist.

"The virus seems to be a bit more powerful this year," says the doctor, coughing as his pen scratches across the prescription

pad. "Don't know when I've seen so much of it around."

The doctor speaks as cheerfully as he can. But inwardly he is out of patience with patients with the virus. He'd like to find a wonder drug to cure his own virus.

Everybody is out of sorts and grumpy.

The strong man beats his wife. The weaker husband, standing at a safe distance from his mate, barks at her. She barks right back.

The laundry puts more starch in everybody's shirt collar—just out of pure cussedness.

The postman swears at the ice on the trees, the snow underfoot. He wonders how many years he'd have to spend in jail if he dumped his mailbag into the nearest sewer—and ran away from home.

The philosophic cab driver is moody and silent. He refuses to solve the problems of his passengers or tell them how to live. To

heck with them. Let them pay their fares and get out.

The restaurant waiter with the far away look has a look that is farther away than ever. He couldn't see a customer if he had a seeing-eye dog. He doesn't want to see a customer. All the customer will do later is complain to him about the food. The waiter eats the same food. He knows it won't improve until the chef's position improves.

It is the dreary time of "the February blues," when the flag of living droops at half-staff. It is a time when the wise man, if he can, hibernates—and waits for a warm wind from the south to bring better days.

Of course, if you're a fighter, there is one thing you can do to whip the doldrums of the spirit that come at this annual calendar crisis.

Now is a wonderful time to do your Christmas shopping early.

Dulles' Task Enormous

It would seem that John Foster Dulles was born to be Secretary of State. His education was in the direction of international law.

His grandfather, John W. Foster, after whom he was named, was Secretary of State in Benjamin Harrison's Cabinet; his uncle, Robert Lansing, was Secretary of State in Woodrow Wilson's Cabinet, and it was Lansing who took Dulles to Paris to see diplomacy at work at the last peace conference this world has known.

It can be said of John Foster Dulles that he has been in and out of the State Department all of his adult life. He started as secretary of The Hague Peace Conference in 1907 (Theodore Roosevelt's Administration).

Ten years later, he was a special agent of the State Department in Central America. Since then his public career has been enormous and was finally capped by becoming Secretary of State of President Eisenhower.

Dulles was educated at Princeton, George Washington University and at the Sorbonne and is one of the few Secretaries of State who can speak other languages than English. I recall visiting him in his New York residence before the 1952 Republican Convention and during our discussion, I was able to say to him that although he favored Gen. Eisenhower for President, Sen. Robert A. Taft had told me that if nominated and elected he would have John Foster Dulles as his Secretary of State.

Dulles inherited a difficult task as Secretary of State; the difficulties increased and became more complex as his years in that office continued. He not only had to face the problem of liquidating a war which had no victor, but he was called upon to deal with a new device in international relations, the cold war, a creation of Soviet Russia but regarded by some nations as characteristic American.

For this, he has been unusually equipped. Few men in this country have devoted as much time and effort and understanding to amassing a working knowledge of Marxism and its application to the Russian Revolution. Long before he became Secretary of State, Dulles

studied the psychology of the Russian mind as affected by the Revolution.

He had read enormously in Leninist literature, and could quote at length from some of the works of Stalin. He did not come to his task a starry-eyed liberal or an unregenerated reactionary. He came a man of knowledge who knew the enemy he faced.

Furthermore, in the United States many ambitious men who would have appreciated being his successor, never failed to downgrade this able man. He never permitted himself to become involved in personal controversy. He went about his business, travelling from country to country, serving his own people, seeking to preserve our nation's dignity, until his physical strength exhausted, he was forced to see to himself. Few men have served America better.

While others were taken in by Soviet trickery and the whetting of American appetites by offers of contraries, some of which never went beyond the offer stage, Dulles grasped the nature of Soviet imperialism and its dangers to the United States. His problem has not been to cave in before the Russian attack while at the same time holding the loyalty of our allies who face different and diverting problems.

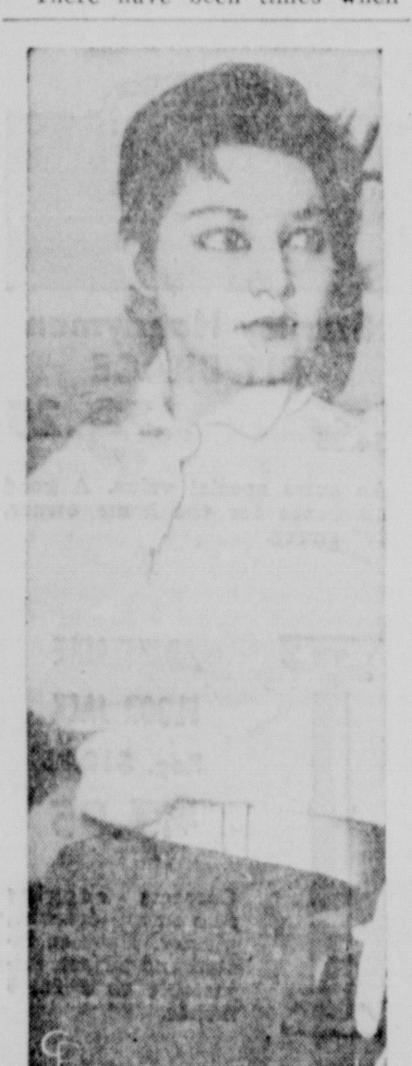

There have been times when

one can be thankful to God that this is not written as an obituary. As I write it, John Foster Dulles has entered a hospital for such an operation from which men do recover. We can only pray that his health will be restored. And yet, if it were an obituary, I could not say more.

He follows a line of noble figures in our history, Thomas Jefferson, John Marshall, James Madison, James Monroe, Daniel Webster, John Hay, Elihu Root, Charles Evans Hughes and among these he will not be measured as unworthy, for he has never compromised with his basic duty—to keep America free and strong and at peace if possible.

His task has been enormous. Few men could have lasted at it as long as he has. Situations changed so rapidly that often he seemed to be caught unaware, but the total of his work defies unfriendly criticism.

For this, he has been unusually equipped. Few men in this country have devoted as much time and effort and understanding to amassing a working knowledge of Marxism and its application to the Russian Revolution. Long before he became Secretary of State, Dulles

SHOOTING BARED—Mrs. Jean (Honey B. Darling) Lewis, 19, gives the camera a cold look in Washington as she answers questions about the shooting of a Virginia man, Robert F. McCuddy, 22. He is in critical condition with two bullet wounds in the chest, inflicted on a lonely road. Mrs. Lewis, a striptease artiste, first told police she had an urge "to kill a man—any man." Then she said they shooting was accidental.

Try and Stop Me

By BENNETT CERF

CHINESE FABLE: An ancient and revered emperor, awakened to the realization one morning that he was henpecked, decided to find out whether this shameful condition also was prevalent among his subjects. He called every V.I.P. in the capital into solemn conclave, then ordered, "Every husband who knows in his heart he is henpecked is to stand over at the south wall."

The entire assemblage, with one lone exception, sheepishly shuffled over to the south wall. The emperor looked at the exception with obvious respect. "You are a lion amongst a flock of sheep," he declared. "Is it possible that you are not henpecked?"

"Well, Sire," hedged the exception, "if I knew what was good for me I'd be over with the others, but just before I left home this morning my wife warned, 'If you don't remember your allergy and stay away from crowds, I positively am going to knock your block off!'"

Measles No Kid's Disease

By HERMAN N. BUNDESEN, M.D.

Many children's diseases come with built-in immunity against further attacks.

For example, one case of measles, German measles, chickenpox, whooping cough, diphtheria or mumps generally protects the patient from a future attack of the same disease.

You probably don't realize it, but measles are responsible for many children who are not in the best physical condition.

This, however, is no reason for deliberately exposing your youngster to a person suffering from one of these diseases so your child can "get it over with."

Unfortunately, this is a fairly widespread attitude among parents, particularly regarding measles.

Ordinarily, communities will have outbreaks of measles every two or three years, generally in the spring.

So if you hear of any measles in your neighborhood, keep your younger children from playing with any child who shows any signs of being ill.

And keep him from playing with any children who go to school. Youngsters are apt to get a lot more than a good education in the classrooms along about this time of the year.

Early signs of measles are familiar to most of us, but I will repeat them briefly as a reminder:

Moderate fever; puffy, watery eyes; lining of the lips and cheeks with small bluish-white spots; one to two days later the rash appears on the head and then the body.

If you notice that your child has any of these symptoms — no matter how old he is — call your doctor.

Question and Answer

Mrs. P. R. N.: Can a diabetic eat an orange or grapefruit a day, or any other kind of fresh fruit?

Answer: Most diabetic diets provide for the inclusion of fresh fruits and citrus juices.

The World Today

WASHINGTON (AP)—This will be a passionate year for economists: a wide-open chance to argue trends and theories. This can cause severe headaches among non-economists, including politicians, who get bogged down in statistics.

Both Democrats and Republicans are making a big anti-inflation pitch.

A joint congressional committee and two committees appointed by President Eisenhower will study the American economy in 1959 to find out how this country can be kept prosperous and made more so.

Since the Eisenhower groups may come up with one set of ideas and the congressional group—composed of 10 Democrats and six Republicans—may come up with others, there will probably be more than one answer.

Nevertheless the congressional inquiry may prove more far-ranging than anything of its kind since the big one made in the 1930s by the temporary National Economic Committee headed by Sen. Joseph C. O'Mahoney (D-Wyo).

Eisenhower set up:

1. A committee—headed by Raymond J. Saulnier, chairman of his Economic Advisory Council—to study all government activities affecting prices and costs. Its members will be representatives of big government agencies.

2. A seven-man Cabinet committee—headed by Vice President Richard M. Nixon—to study and recommend government and private policies influencing costs and prices. Where the Nixon and Saulnier groups will and won't overlap is not clear.

NO TAX INCREASE

DANVILLE, Va.—Although most taxes go up and stay up, old newspapers here show there are exceptions. The dog tax in 1899 was \$1.50 plus 2 cents for the manufacture of a tag. Today it is \$1.

You're Telling Me!

By WILLIAM RITT
Central Press Writer

The squawks of a pet parrot in a Swedish bank scared away burglars who fled without getting any loot. From now on those footpads will consider trying to rifle a strongbox strictly for the birds!

A German shipyard has developed a new type of lifeboat which is said to closely resemble a huge sausage. A sort of motorized frankfurter?

Grandpappy Jenkins says this nation is being run by youngsters. Forty-four members of the new Congress are not yet 50 years old.

See where the Anti-Superstition society of Chicago observed Friday 13 by smashing 13 mirrors with 13 horseshoes. Sounds like a pretty expensive way to chase a jinx.

Three Michigan county jail inmates failed to cover the noise of their filing through the bars by singing loudly. Maybe, they should have used musical saw!

Zadok Dumkopf wonders if the tune those baffled convicts sang was "The Prisoner's Song."

The still uncaught Abominable Snowman of the Himalayas was first reported seen back in 1889. All we can say is that the grisly (or is it grizzled?) grandpa, is still pretty active.

JOHNSON

Insurance Agency

216 S. Court — GR 4-5433

Now They're Netting Stars

It was certain to happen. With the space program accelerating almost as fast as the speed of the latest rockets, it is mystifying those participating in the program haven't shown the strain before this.

The U. S. Air Force is the first to acknowledge the pace is too much for it. It is now going to try to catch satellites with butterfly nets.

"Project Hot Hand" is the name given the program under which fliers are being trained to catch falling satellites with huge nets trailing from their planes. The Pentagon, perhaps red-faced at the vision of its warriors chasing objects with giant nets, has remained officially quiet on the subject, but enterprising newsmen have captured the story with their own nets.

Giant C-119 "flying boxcars" have been practicing for some months in preparation for the firing of a series of North-South satellite launchings scheduled at Vandenberg Air Force Base in California. These satellites, orbiting around the poles of the earth, will be in continual touch with instruments located at an Alaskan tracking station. Data on the height, speed and course of the objects will be transmitted to the waiting planes based on Hawaii.

Season Tries Men's Souls

NEW YORK (AP)—This is the season that tries men's souls—and tempers.

Spring won't come and winter won't let go.

Somewhere birds are singing and the sun is shining bright. But not here. If it ain't raining, it's snowing; if it ain't thawing, it's freezing. If the sky ain't clouding up, well—it's about to.

The milk of human kindness is frozen into an unfriendly icicle. The first robin, wearing a bright sunrise-colored vest, arrives on schedule.

But before this pitchman for warmer weather can sound his first note of cheer someone hits him with a snowball, and he comes down with sore throat and a virus. But he's in good company. Any one who doesn't have a virus is an exhibitionist.

"The virus seems to be a bit more powerful this year," says the doctor, coughing as his pen scratches across the prescription

As the satellite begins its downward trip into the atmosphere, if all goes as planned, it will sprout a parachute while over the vicinity of Hawaii. The net-trailing planes will attempt to catch the vehicle by continually traversing the area in ever-descending circles. Each of the planes will have about three passes at the satellite before it hits the ocean.

In the event none of the net wielders catches the prize, they will circle the landing spot until a ship or flying boat can retrieve it.

Tricky business, this, trying to catch a falling object with an airplane without getting it tangled in a propeller or wing. It may make some participants long for the days when the hardier men were roping cattle with lariats, not chasing satellites with butterfly nets.

Courtin' Main

A litt'l' jack can lift a car, but it takes a lot of jack to keep it up.

By Hal Boyle

heek with them. Let them pay their fares and get out.

The doctor speaks as cheerfully as he can. But inwardly he is out of patience with patients with the virus. He'd like to find a wonder drug to cure his own virus.

Everybody is out of sorts and grumpy.

The strong man beats his wife. The weaker husband, standing at a safe distance from his mate, slaps her. She barks right back.

The laundry puts more starch in everybody's shirt collar—just out of pure cussedness.

The postman swears at the ice on the trees, the snow underfoot. He wonders how many years he'd have to spend in jail if he dumped his mailbag into the nearest sewer—and ran away from home.

The philosophic cab driver is moody and silent. He refuses to solve the problems of his passengers or tell them how to live. To

now is a wonderful time to do your Christmas shopping early.

Dulles' Task Enormous

It would seem that John Foster Dulles was born to be Secretary of State. His education was in the direction of international law.

His grandfather, John W. Foster, after whom he was named, was Secretary of State in Benjamin Harrison's Cabinet; his uncle, Robert Lansing, was Secretary of State in Woodrow Wilson's Cabinet, and it was Lansing who took Dulles to Paris to see diplomacy at work at the last peace conference this world has known.

It can be said of John Foster Dulles that he has been in and out of the State Department all of his adult life. He started as secretary of The Hague Peace Conference in 1907 (Theodore Roosevelt's Administration).

Ten years later, he was a special agent of the State Department in Central America. Since then his public career has been enormous and was finally capped by becoming Secretary of State of President Eisenhower.

Dulles was educated at Princeton, George Washington University and at the Sorbonne and is one of the few Secretaries of State who can speak other languages than English. I recall visiting him in his New York residence before the 1952 Republican Convention and during our discussion, I was able to say to him that although he favored Gen. Eisenhower for President, Sen. Robert A. Taft had told me that if nominated and elected he would have John Foster Dulles as his Secretary of State.

Dulles inherited a difficult task as Secretary of State; the difficulties increased and became more complex as his years in that office continued. He not only had to face the problem of liquidating a war which had no victor, but he was called upon to deal with a new device in international relations, the cold war, a creation of Soviet Russia but regarded by some nations as characteristically American.

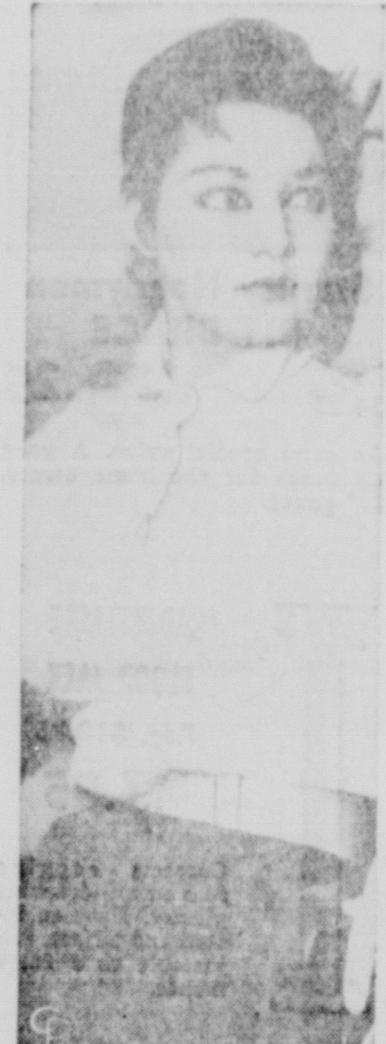

For this, he has been unusually equipped. Few men in this country have devoted as much time and effort and understanding to amassing a working knowledge of Marxism and its application to the Russian Revolution. Long before he became Secretary of State, Dulles

studied the psychology of the Russian mind as affected by the Revolution.

He had read enormously in Leninist literature, and could quote at length from some of the works of Stalin. He did not come to his task a starry-eyed liberal or an unregenerated reactionary. He came a man of knowledge who knew the enemy he faced.

While others were taken in by Soviet trickery and the whetting of American appetites by offers of contracts, some of which never went beyond the offer stage, Dulles grasped the nature of Soviet imperialism and its dangers to the United States. His problem has been not to cave in before the Russian attack while at the same time holding the loyalty of our allies who face different and diverting problems.

There have been times when

By George Sokolsky

Dulles was extraordinarily unpopular in Europe as well as in the United States. This was not altogether due to Russian propaganda. The man who has often to say, "No!" is never too popular. And it has been Dulles's lot to say, "No!" not only to the Russians but to our allies.

Furthermore, in the United States many ambitious men who would have appreciated being his successor, never failed to down-grade this able man. He never permitted himself to become involved in personal controversy. He went about his business, travelling from country to country, serving his own people, seeking to preserve our nation's dignity, until his physical strength exhausted, he was forced to see to himself. Few men have served America better.

One can be thankful to God that this is not written as an obituary. As I write it, John Foster Dulles has entered a hospital for such an operation from which men do recover. We can only pray that his health will be restored. And yet, if it were an obituary, I could not say more.

422 S. WASHINGTON

4 The Circleville Herald, Wed., Feb. 18, 1959

Circleville, Ohio

The World Today

WASHINGTON (AP)—This will be a passionate year for economists: a wide-open chance to argue trends and theories. This can cause severe headaches among non-economists, including politicians, who get bogged down in statistics.

Both Democrats and Republicans are making a big anti-inflation pitch.

A joint congressional committee and two committees appointed by President Eisenhower will study the American economy in 1959 to find out how this country can be kept prosperous and made more so.

Since the Eisenhower groups may come up with one set of ideas and the congressional group—composed of 10 Democrats and six Republicans—may come up with others, there will probably be more than one answer.

Nevertheless the congressional inquiry may prove more far-ranging than anything of its kind since the big one made in the 1930s by the temporary National Economic Committee headed by Sen. Joseph C. O'Mahoney (D-Wyo).

Eisenhower set up:

1. A committee—headed by Raymond J. Saulnier, chairman of his Economic Advisory Council—to study all government activities affecting prices and costs. Its members will be representatives of big government agencies.

2. A seven-man Cabinet committee—headed by Vice President Richard M. Nixon—to study and recommend government and private policies influencing costs and prices. Where the Nixon and Saulnier groups will and won't overlap is not clear.

The union, which had demanded a union shop, called the new arrangement a "dues shop."

But the Democrats were not to be outdone. While Eisenhower created these committees in January, last December Lyndon Johnson of Texas, leader of the Senate Democrats, had called for a big study of the nation's economic system.

Last week Johnson called on Sen. Paul Douglas (D-Ill), chairman of the joint congressional committee, to get the ball rolling with his group. Douglas himself is a trained economist.

The Douglas committee's hear-

ings should provide one of the biggest forums in years for economists of all shades of opinion. A Douglas aide said the committee's studies may wind up by the end of 1959.

That's a guess. It could last much longer. No doubt it will be months before the Douglas group can hear enough views, and learn enough facts, to produce recommendations of its own.

Then it remains to be seen what action, if any, Congress takes, particularly since the Eisenhower committee should be making recommendations, too, by that time.

Nixon said his group will have long-range rather than short-range goals: "In conducting our studies and in making our recommendations, we plan to enlist the advice of representatives of business, labor, government and other segments of the economy who are experts in the problems involved."

Eisenhower outlined the task facing the Saulnier committee:

"Although the government has many programs that affect prices and costs, including, of course, procurement (purchasing)—there is no central mechanism for following their current operations to see whether they are being conducted, insofar as possible, in line with the need for reasonable stability of prices and costs."

The Douglas committee's study will go pretty much across the economic board, covering such subjects as inflation, deflation, employment, unemployment, credit, the money supply, prices, profits, government spending, taxation and so on.

Aides Get Choice: Pay Union, Charity

HONOLULU (AP)—Hawaiian pineapple workers either are going to have to pay union dues or spend that much on charity.

A two-year contract between seven canneries and the International Longshoremen's and Warehousemen's Union announced Monday gives 7,000 employees these choices:

1. Remain in or join the union and pay dues.

2. Remain out but pay dues.

3. Remain out but pay, through payroll deductions, the equivalent of dues to a fund for certain agreed charities.

The union, which had demanded a union shop, called the new arrangement a "dues shop."

No Tax Increase

DANVILLE, Va. (AP)—Although most taxes go up and stay up, old newspapers here show there are exceptions. The dog tax in 1899 was \$1.50 plus 2 cents for the manufacture of a tag. Today it is \$1.

U.S. Economic Growth Pace Under Study

Spurt by Russians Eyed by Pair of Capital Probe Groups

By SAM DAWSON

AP Business News Analyst

NEW YORK (AP)—Both a congressional committee and a group of Cabinet officials are narrowing in today on two of the big questions of the hour:

Is the U.S. economy growing as fast as it should in view of the Russian spurt? Can we speed up our growth and shrink the number of the jobless without paying the price of inflation?

After its recession breather our economy is back again on the business recovery road.

The economy has been growing at a sedate average rate of 2 per cent a year. The Russians assert that their economy is growing at a rate of 7 to 8 per cent a year. They still have a long way to go before catching up with us, but some economists feel that Americans should speed up their economic growth rate to stay well in front.

The government is being urged to accomplish this through various pump priming schemes and tax incentives.

Opponents warn that such schemes could mean greater government spending—on money borrowed from commercial banks, which can be a prime factor in monetary inflation.

Monetary or credit inflation has the habit of translating itself into a rising cost of living.

This nullifies for everyone part of the benefits of increased economic activity and higher employment.

A few advocates of faster growth through use of stimulants argue that inflated prices could be warded off with government controls. The unpopularity of such controls in peacetime is widespread, however.

The Senate-House Economic Committee is about to start a broad study of all the above problems.

President Eisenhower's group, headed by Vice President Nixon, is expected to concentrate largely on the danger of more inflation.

The President himself has on several occasions urged management to show restraint in raising prices and has called on labor for like restraint in demanding higher wage scales.

He also urges Congress to get the budget balanced to ward off another embarrassing Treasury deficit.

The congressional study proposes to look into the manner in which prices, wages, production and employment react on each other and set the pattern of economic growth or stagnation.

It also proposes to study the effect on prices, jobs and output of government spending and taxation, which Congress is supposed to control.

The growth in our economy is sought for several reasons other than keeping up with the Russians.

One is to take care of a growing population that needs jobs. Another is to build up spendable incomes so that consumers can buy more things.

Californians Seek Walnut Sale to U.S.

WASHINGTON (AP)—California growers have four million pounds of walnuts to sell. West Coast congressmen have been told the growers want the federal government to buy the nuts.

Unless it does, spokesman for the growers say, the price of walnuts will tumble, followed by the price of pecans, almonds and other tree nuts. Spokesmen will discuss the problem Friday with Secretary of Agriculture Ezra Taft Benson.

guests of Mr. and Mrs. Paul Dawson and son Pat.

Five Points News

Mr. and Mrs. Forrest J. Easter of near Circleville were Saturday evening guests of Mr. and Mrs. Paul Dawson and son Pat.

The first grade room of the Monroe Township School was the scene of a lovely Valentine Party Friday afternoon. Mrs. Stewart, teacher, and Mrs. Floyd Zimmerman, Mrs. Leo Dunkle, Mrs. Frederick Overly, Mrs. Charles Smith, and Mrs. Richard Phillips, mothers, were hostesses.

Mr. and Mrs. Clark Dennis and Mrs. Helen Phillips were Sunday guests of Mrs. Frances McPherson and family and Mrs. Artha Brigner of the Hartman Farm.

Tony Phillips visited his brother Ricky Phillips at school Friday afternoon.

Mr. C. E. Shipley and Mrs. Doshia Large of Chillicothe and Mr. J. J. Fohl of Johnstown were Sunday guests of Mr. and Mrs. Charles Parks.

Mr. and Mrs. Francis Furniss

U.S. Economic Growth Pace Under Study

Spurt by Russians Eyed by Pair of Capital Probe Groups

By SAM DAWSON
AP Business News Analyst
NEW YORK (AP)—Both a congressional committee and a group of Cabinet officials are narrowing in today on two of the big questions of the hour:

Is the U.S. economy growing as fast as it should in view of the Russian spurt? Can we speed up our growth and shrink the number of the jobless without paying the price of inflation?

After its recession breather our economy is back again on the business recovery road.

The economy has been growing at a sedate average rate of 2 per cent a year. The Russians assert that their economy is growing at a rate of 7 to 8 per cent a year. They still have a long way to go before catching up with us, but some economists feel that Americans should speed up their economic growth rate to stay well in front.

The government is being urged to accomplish this through various pump priming schemes and tax incentives.

Opponents warn that such schemes could mean greater government spending—on money borrowed from commercial banks which can be a prime factor in monetary inflation.

Monetary or credit inflation has the habit of translating itself into a rising cost of living.

This nullifies for everyone part of the benefits of increased economic activity and higher employment.

A few advocates of faster growth through use of stimulants argue that inflated prices could be warded off with government controls. The unpopularity of such controls in peacetime is widespread, however.

The Senate-House Economic Committee is about to start a broad study of all the above problems.

President Eisenhower's group, headed by Vice President Nixon, is expected to concentrate largely on the danger of more inflation.

The President himself has on several occasions urged management to show restraint in raising prices and has called on labor for like restraint in demanding higher wage scales.

He also urges Congress to get the budget balanced to ward off another embarrassing Treasury deficit.

The congressional study proposes to look into the manner in which prices, wages, production and employment react on each other and set the pattern of economic growth or stagnation.

It also proposes to study the effect on prices, jobs and output of government spending and taxation, which Congress is supposed to control.

The growth in our economy is sought for several reasons other than keeping up with the Russians.

One is to take care of a growing population that needs jobs. Another is to build up spendable incomes so that consumers can buy more things.

Californians Seek Walnut Sale to U.S.

WASHINGTON (AP)—California growers have four million pounds of walnuts to sell. West Coast congressmen have been told the growers want the federal government to buy the nuts.

Unless it does, spokesmen for the growers say, the price of walnuts will tumble, followed by the price of pecans, almonds and other tree nuts. Spokesmen will discuss the problem Friday with Secretary of Agriculture Ezra Taft Benson.

guests of Mr. and Mrs. Paul Dawson and son Pat.

Mr. and Mrs. Clarence Finch were Sunday dinner guests of Mr. and Mrs. Robert See.

Mrs. Ben F. Conley entertained

16 members of the Social Hour Club of Mt. Sterling in her home last Thursday afternoon. Mrs. Willis Conley was a guest at the meeting.

The Circleville Herald, Wed., Feb. 18, 1959
Circleville, Ohio

Abe Lincoln Program for Garden Club

The Ashville Garden Club met at the home of Mr. and Mrs. Richard Hedges for its February meeting.

Miss Florence Brown, president, opened the meeting by reading a prayer followed by the Lord's prayer. The pledge of allegiance to the flag was given.

The treasurer reported that the Christmas workshop had made a net profit of \$91.76.

Mrs. Brown gave a report of the meeting of the Pickaway County Council of Garden Club which was held in the home of Mrs. Watt in January. The Spring meeting of the council has been changed from June to May 20th. It will be held in the parish house of Trinity Lutheran Church, Circleville. A covered-dish luncheon will be the feature of the noon hour.

Miss Brown read a paper on "Lincoln and Ohio" which had been prepared by Miss Nelle Oesterle. Other articles read were by Mrs. Knode, "Abe's Feet Never Trod Pickaway County" and "Lincoln 1809-59" by Mrs. Hedges. Mrs. Peter Johnson gave some interesting comments from the book, "The Great Emancipator."

Mr. Hedges, county highway director, told the club of the many different plantings of Dog Wood, Red Bud and others along Route 23.

The March meeting will be held in the home of Mrs. Elmer Seigle.

George Hamrick Guest Speaker For Garden Club

George Hamrick was the guest speaker for the Soliqua Garden Club when it met in the home of Mrs. C. W. Hedges, Route 2, Ashville, for its February meeting.

Assisting hostesses were Mrs. John Koch and Mrs. Lulu Owens. Mrs. Harry Trump presided over the business meeting. It was announced the Federated meeting scheduled for May will be held on Wednesday, May 20, at the Circleville Trinity Lutheran Parish House. A carry-in dinner and workshop will be held.

A new member was welcomed into the group.

Hamrick, County Extension Agent, entertained the group with slides and figures on soil conservation.

Following the program, refreshments were served.

The March meeting will be held at the home of Mrs. Trump, Route 3, with Mrs. John Etel assisting.

Five Points WCTU Gives Annual Tea

The members of the Five Points Women's Christian Temperance Union were hosts to their annual Frances Willard Tea Friday afternoon in the Monroe Twp. School Auditorium.

The high school pupils and teachers were guests, also Mrs. Florence Haughn, Pickaway County WCTU president, Mrs. Opal Hott, Mrs. Emma Coontz, Mrs. Zenia Albright and Mrs. Emma McGhee members of the Commercial Project WCTU and Mrs. Paul Dawson.

Mrs. Francis Furniss, president, welcomed the guests and opened the meeting by reading the 46th Psalm as the scripture. Mrs. Harry Dick gave the meditations followed by prayer.

Mrs. Herman Porter gave some interesting facts about Frances Willard as contained in the book "The Beautiful Life of Frances E. Willard."

Mrs. Furniss then introduced the Rev. Jack Klein, of Mt. Sterling Methodist Church, who was guest speaker. He gave some interesting and educational facts about the temperance cause. Temperance literature was given to the students to read.

At the close of the meeting, refreshments were served from a beautiful appointed tea table centered with a valentine arrangement.

Mrs. Haughn and Mrs. Patty Ogle presided at the silver tea and coffee service.

The March meeting will be held March 11th in the home of Mrs. Sylvia Eggleston, Five Points, with Mrs. Mabel Emmons as hostess.

Storage in the Home" was the program for the Perry Twp. Ingenuity Group of the Home Demonstration when it met in the Atlanta School on Thursday for its February meeting.

Mrs. Jake Justice and Mrs. Irvin E. Funk were the leaders. Demonstration of peg board panels, drawer dividers and shelves with literature on "Storage for Clothing" proved informative.

A cafeteria style lunch was served during the noon hour with Mrs. Funk being the hostess. A valentine theme was used in the table decorations. Hostesses were Mrs. Harold Moffitt and Mrs. Clark Martin.

Those present were: Mr. and Mrs. Sam Cook, Mr. and Mrs. Richard Davis, Mr. and Mrs. John Jenkins, Mr. and Mrs. Roland Reinhard, Mr. and Mrs. Emmitt Evans, Mr. and Mrs. Marshall Winner, Mr. and Mrs. Martin.

Mr. and Mrs. James Trimmer, Mr. and Mrs. Robert Barnes, Mr. and Mrs. Lee Berry, Mr. and Mrs. George Neff, Mr. and Mrs. John Woods, and Mrs. Donald Call.

The next meeting will be held March 5 at the home of Mrs. Sam Cook, E. Mound St. The program will be the discussion of wills with Judge William Ammer, the guest speaker.

Husband's Night Enjoyed by Culture League

Members of the Child Culture League entertained their husbands to a carry-in dinner followed by square dancing last night in the basement of the VFW Hall.

A Valentine theme was used in the table decorations. Hostesses were Mrs. Harold Moffitt and Mrs. Clark Martin.

Those present were: Mr. and Mrs. Sam Cook, Mr. and Mrs. Richard Davis, Mr. and Mrs. John Jenkins, Mr. and Mrs. Roland Reinhard, Mr. and Mrs. Emmitt Evans, Mr. and Mrs. Marshall Winner, Mr. and Mrs. Martin.

Mr. and Mrs. James Trimmer, Mr. and Mrs. Robert Barnes, Mr. and Mrs. Lee Berry, Mr. and Mrs. George Neff, Mr. and Mrs. John Woods, and Mrs. Donald Call.

The next meeting will be held March 5 at the home of Mrs. Sam Cook, E. Mound St. The program will be the discussion of wills with Judge William Ammer, the guest speaker.

Social Session Planned by Club

Social Session of Monday Club will be held at 6 p.m. March 2nd in the social rooms of the Presbyterian Church. It is to be a dinner meeting.

The reservations will be taken by Mrs. Robert Adkins, phone GR 4-2738 or Mrs. Edwin Shane, phone GR 4-2020.

Members should have their reservations in not later than Friday, February 27.

Lenten Season Topic for EUB Class

The Kappa Beta Class of the First EUB Church met last night in the home of Mrs. Orville Jacobs, Columbus. Co-hostesses were Mrs. Cecil Stauffer and Mrs. Glenn Heffner.

The group sang "In the Garden" and "He Lives." For scripture reading, Mrs. Jacobs read Luke 9:23-27. Mrs. Stauffer gave a reading on the Lenten season.

Mrs. Heffner read a poem and devotions were closed with Mrs. Jacobs offering prayer.

Miss Phyllis Hawkes presided over the business meeting. Everyone was urged to attend church Lenten services. At the next month's meeting class members are to bring their Bibles and suggestions for class improvement.

The contest for the evening was won by Mrs. Woodrow Carley.

At the close of the meeting refreshments were served by the hostesses to the following: Mrs. Carley, Miss Marilynn Francis, Mrs. Elliott Hawkes, Miss Hawkes, Miss Lucille Kirkwood, Mrs. Bill Lockard, Miss Delores Mavis, Mrs. Carl Baker, Mrs. Sandra Miller, Misses Mary and Olive Ward and Misses Leona and Virginia Wise.

Mrs. Frank Gill Honored with Bridge Shower

A surprise bridge shower was given for Mrs. Frank Gill Friday evening in the home of Mrs. Doyle Painter, 1010 Lynwood Ave. Assisting hostesses were Mrs. Donald Archer and Mrs. James Locke.

High prize in bridge was won by Mrs. Gill and low went to Mrs. Roland Reindar.

The table was decorated in a valentine theme with a red and white carnation centerpiece being used.

Guests present were: the honored guest, Mrs. Jude Gleinzer, Mrs. Reinhard, Mrs. Carl Bach, Mrs. Frank Boyer, Mrs. William Hagenbach, Mrs. Frank Rhoads and Mrs. Paul Helwagen.

Women's Club Prexy To Appear on TV

Club women throughout the United States will be given an opportunity to visit their headquarters in Washington D. C., when the president of the General Federation of Women's Clubs, Mrs. Chloe Gifford, appears on the Edward R. Murrow Person to Person television program Friday.

Member clubs in the Pickaway County area are the Junior Women's Club and Monday Club, Circleville; Saltcreek Town and Country Club, Ashville Women's Civic Club and the Kingston Civic Club.

Guild No. 36 To Meet Tonight

Berger Hospital Guild No. 36 will meet in the home of Mrs. Charles Sabine, 947 S. Pickaway St. at 8:30 p.m. today.

Pythian Sisters Plan Meeting

The Boosters Class of the First EUB Church will meet in the service center at 2 p.m. Saturday with Mrs. Montford Kirkwood Jr. and Mrs. Florence Mason in charge.

If you have doorstep milk delivery make sure that milk in glass bottles never stands exposed to strong sunlight; sun destroys the riboflavin in the milk.

Blistered, dried or dark skin on frozen duck usually indicates that the freezing or storage methods are inferior; properly cared for frozen duck is as good a product as fresh duck.

Pickaway Grange Report

POMONA GRANGE

Pomona Grange met in the Scioto Grange hall, with Scioto Grange as host. There were approximately 65 present for the meeting and noon luncheon. Tables were decorated in keeping with Valentines Day.

The group sang "In the Garden" and "He Lives." For scripture reading, Mrs. Jacobs read Luke 9:23-27. Mrs. Stauffer gave a reading on the Lenten season.

Mrs. Heffner read a poem and devotions were closed with Mrs. Jacobs offering prayer.

Miss Phyllis Hawkes presided over the business meeting. Everyone was urged to attend church Lenten services. At the next month's meeting class members are to bring their Bibles and suggestions for class improvement.

The contest for the evening was won by Mrs. Woodrow Carley.

At the close of the meeting refreshments were served by the hostesses to the following: Mrs. Carley, Miss Marilynn Francis, Mrs. Elliott Hawkes, Miss Hawkes, Miss Lucille Kirkwood, Mrs. Bill Lockard, Miss Delores Mavis, Mrs. Carl Baker, Mrs. Sandra Miller, Misses Mary and Olive Ward and Misses Leona and Virginia Wise.

The minutes of the last meeting were read and approved.

Mrs. Dowler told of the contests to be held in the Granges this year. A Dollie contest, an apron contest and a Brownie contest. More information on the contests can be obtained from your local Home Economics chairman. The grangers are still saving used eye glasses for "Eyes for the needy".

Deputy John Dowler remarked about the contests between Granges on the Opening and Closing of the Flag. The dates for the different Granges are on March 20, Nebraska, Scioto Valley, Scioto and Star, at Scioto Grange. March 26, Saltcreek Valley, Logan Elm, Washington and Mt. Pleasant at Logan Elm Grange.

The grangers of Pickaway County have been asked to lend a helping hand to the Lewis Dean family who were recent flood victims. Food is very much in need.

On May 2 Pickaway County will be host for the State contest to be held at Scioto Grange.

Scotiagrane will be host for the May 1 Pomona meeting which will be on Friday evening. Mr. and Mrs. H. O. Caldwell will give their colored slides and lecture on the

recent trip of the near East. This will be during the Lecture hour.

On March 14 there will be a county-wide Euchre party at the Fairgrounds Coliseum. All granges will help. The public is invited. Committees have been appointed.

The grange voted to donate to the State youth fund, and the following resolutions were submitted during the business meeting. "We as Pomona Grangers are back of the bill now in the Legislature for more money for Polio Vaccine in the State of Ohio.

"We wish to go on record to abolish Quail hunting in Ohio.

"Resolved that Pomona Grange of Pickaway Cooperate with other organizations in the county in the promotion of Rural Zoning, and that a standing committee of interested members be named, and that they be ready to take action as soon as the project is started."

Mrs. Judson Beougher, lecturer, was in charge of the program. Miss Patty Schleicher, sang "Lavender Blue" accompanied by her mother, Mrs. Helen Schleicher. Elaine Judy gave a piano solo, "The Chimes of Westminster", a skit of the pessimist (Mrs. Francis Furniss) and the Optimist (Mrs. Frank Gill) was given.

The group sang "Let Me Call You Sweetheart". Safety First Bulletins were given out and a summary of the "First 14 days of Survival". The Lecture urged all persons to become better acquainted with what the Civil

Famine No Longer Stalks Through Communist Nation

Editor's Note — "Land for the peasants" was one of the early cries of Chinese revolutionaries. And when the Communists took over, peasants got the land — briefly. In the third of five articles on Red China, based on his extensive travels there, Dr. Chandrasekhar tells how Peiping tackled the country's food problem.

By Dr. Sripati Chandrasekhar
Copyright, 1959.

By The Associated Press

It is natural that in any underdeveloped country the problem of agriculture and food supply should assume paramount importance. This is particularly true in China where famine has stalked the land from time immemorial and grain has been imported since 1721.

During the last 100 years, what with a series of wars with Western nations, continuous Japanese aggression after 1931, a 30-year civil war and a six-year World War II, there has been a constant state of political unrest, economic dislocation and recurring famine.

About 25 years ago, when China, in the throes of widespread famine, appealed to the International Red Cross, the Red Cross declined help on the ground that it was designed to meet national emergencies but that famine in China was not an emergency but a chronic state of affairs.

What have the Communists done to solve the food problem?

While there was some shortage today from the quantitative point of view, no one starves in China now. Though the common man does not have meat or fruit, everybody gets at least a bowl of rice and some cabbage.

This is saying a great deal when you remember that China's population today is about 650 millions.

Any satisfactory solution of the food problem in Asian countries implies revolutionary changes in land ownership and methods of cultivation. The Chinese Communists have effected, by and large successfully, such drastic changes. Their agrarian reforms have passed through four distinct changes between 1949 and 1958.

The first stage witnessed the public trials of landlords. And when the long-suffering peasantry knew that the new regime meant business, they accused the landlords of all the crimes known to man — from harsh treatment, withholding grain from a starving peasant's family, raping the peasant's daughter or taking his women as concubines, down to brutal murder.

It is possible that some landlords were guilty of these crimes, but there were no lawyers to defend them. Communist justice is of a different kind. Most landlords pleaded guilty, for the simple reason that they knew their end was near no matter what their defense.

It is estimated about two million

landlords were executed. Now the land was available.

The second stage involves the distribution of land to landless peasants. A very complicated machinery was set in motion to distribute the land on the basis of numerous criteria. The average peasant received a few mu of land. (A mu equals about a sixth of an acre.) There was jubilation among 500 million peasants, but it did not last long.

Within two years, the third stage was launched. It was said that private ownership of land was neither socialism nor communism, that it was both a serious economic barrier to greater production, so desperately needed.

Ed Murrow Plans Leave Of Absence

NEW YORK (AP) — Edward R. Murrow will take a year's leave of absence from the Columbia Broadcasting System effective July 1.

He said in a letter to CBS President Frank Stanton that his contract contains a provision for leave, and said his only reason for seeking it is to take time for travel and reflection. Stanton replied that the network was happy to grant the leave and looked forward to his return.

Murrow's move followed reports of strained relations between him and CBS officials. It was reported that his leave has nothing to do with his health nor with the controversy that followed a recent radio program on prostitution.

Murrow, 50, has been with CBS since 1935.

While on leave, Murrow will continue his program, "Small World," a filmed Sunday evening TV series of international conversations on a reduced basis.

He will discontinue his documentaries, his nightly radio program of news and commentary, and his weekly television visits to celebrities, "Person to Person."

British Losing Estates In Northern Sumatra

JAKARTA, Indonesia (AP) — The Indonesian government has started taking over British estates in North Sumatra. The British Embassy has protested.

An Indonesian official indicated that the concessions for the estates had expired and were not being renewed. The government took control of all Dutch properties in December 1957 and nationalized them last December, but this was the first move against other foreign property.

Franklin, N. H., is the birthplace of Daniel Webster and his home is maintained there as a museum. There also is an orphans' home on the Webster farm

Ottawa Plans Purchase Of Land for New Park

OTTAWA, Ohio (AP) — Village Council has approved purchase for \$25,000 of a 30-acre site at the north edge of Ottawa for a new park.

The money will come from sale of a two-acre portion of the existing memorial park to Sylvania Electric Products Co.

Sylvania products has five storage plants in Lima and wants to consolidate all of its warehouse facilities in one new building here.

City University Aides To Parley with DiSalle

TOLEDO, Ohio (AP) — Trustees of three municipally operated universities are to meet with Gov. Michael V. DiSalle in Columbus Thursday to discuss state financing of the institutions.

The trustees of the Universities of Toledo, Akron and Cincinnati are expected to sound out DiSalle on their proposal that the state provide municipal institutions with \$300 a year for each full-time freshman and sophomore enrolled from Ohio.

Oats Seeding Time Is Drawing Near

By GEORGE HAMRICK
County Extension Agent,
Agriculture

There have been in recent years many new oats varieties developed. Each of these new varieties must be carefully evaluated for adaptation and superiority in performance under our growing conditions.

The following described oat varieties have been recommended and proven to be consistent in producing high yields combined with acceptable bushel weight, straw strength, disease resistance and grain quality.

Ajax produces high yields of large white grain in areas in which relatively late maturity and medium tall straw is desired. Compared to other recommended varieties, Ajax is lightest in bushel weight and most susceptible to lodging.

Clarion is widely adapted in Ohio and produces high yields of heavy, plump, yellow kernels. Clarion is somewhat tolerant to oat diseases, and exhibits good straw strength.

CLINTLAND is the most resistant of the recommended oat varieties to the races of crown rust occurring in Ohio. Medium early in maturity, Clintland has stiff straw and produces high quality yellow kernels of excellent bushel weight.

Clinton 59 lacks resistance to crown rust but is otherwise identical to Clintland for yield, bushel weight, and other agronomic characteristics. When crown rust infection is heavy, Clinton 59 is inferior for yield, straw strength and grain quality.

Rodney oats matures about one week later than Clintland and provides high yields of large, white kernels and tall, stiff straw. These five varieties have been proven and have been found successful. Many other varieties are available but most of them have not been recommended for one reason or another.

The latest extension publication, "Crop Varieties and Corn Hybrids", contains the latest developments in most of the farm crops. This bulletin may be secured by request at the Agriculture Extension Service Office at 10 a.m. to 12 noon in the Campbell Hall auditorium.

Topics and speakers of the 2 to 3:30 program will include: "If You Watch Your Weight", Mildred Arnold, American Institute of Baking; "Good Grooming for Floors", Dr. Elaine Weaver, household equipment research, and Dorothy Lawrence, Extension housing and furnishings specialist; and "This Business of Baby Sitting—at Home and Elsewhere", Helene Heye, chairman of Family and Child Development Division of School of Home Economics, and Lucile Peppon, Extension family life specialist.

A DEMONSTRATION showing energy expenditure in household tasks will be conducted at 3 p.m. in Townshend Hall by Mrs. Margaret Keiser, research assistant in Home Economics.

Exhibits relating to home economics subjects will be on display during the day, and open house in Campbell Hall will be observed from 9:15 to 10 each morning.

Benson Argues For Slash in Farm Props

WASHINGTON (AP)—Secretary of Agriculture Ezra Taft Benson has argued to senators that farm price supports at too high a level do more harm than good.

He was before the Senate Agriculture Committee, plugging the administration's program for the farm law changes that would cut government costs and give farmers more freedom to produce.

And as he did in testimony last week to the House Agriculture Committee, Benson contended this is needed to fight inflation.

Benson said most of agriculture is free of controls and attempts at price fixing at what he called unrealistic levels.

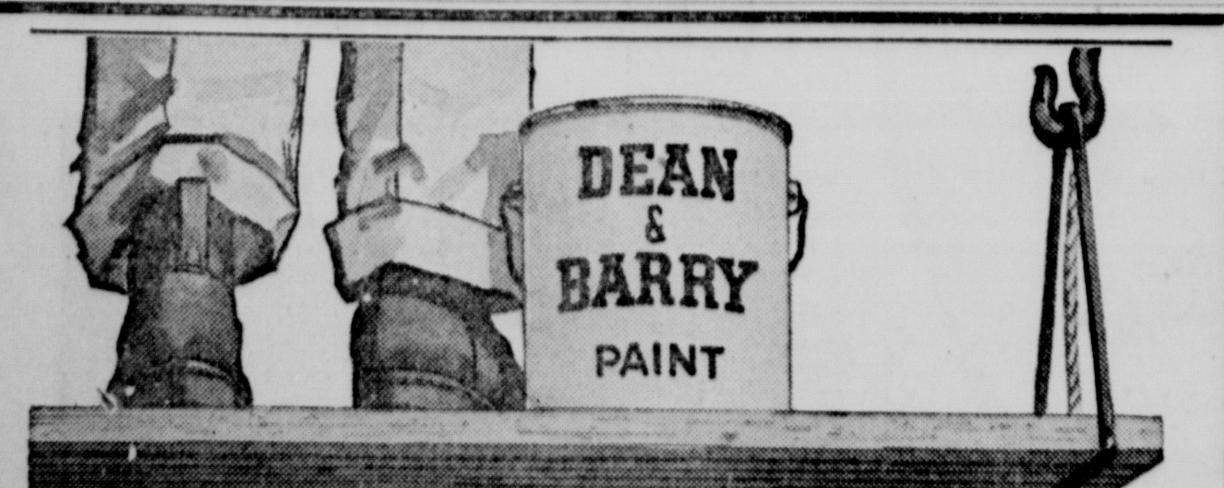

"This part of agriculture is doing reasonably well," he said. "Its markets are expanding and production is kept in reasonable balance with demand."

Lepto Found In Ohio Cattle

Sick Cows Show Several Symptoms

A newly recognized disease of cattle has been observed in Ohio. The name of the disease is leptospirosis, which for convenience has often been shortened and called by the name, "lepto".

Although this disease was first detected in Ohio in 1951, there is reason to believe that it has been present for some time. It is rather widespread at the present time, probably five per cent of the cattle in Ohio have been infected with this disease. Not only can it affect cattle, but also swine, horses, sheep, various wild animals and man.

A cow or calf sick with "lepto" may show a variety of symptoms and for this reason it is often difficult to make an accurate diagnosis of this disease. The attention of the dairyman may first be attracted to a cow showing loss of appetite with an abrupt drop in milk production. The udder will usually be soft and flabby with the milk thickened and in some cases blood-tinged.

In most cases the cow will be back in full production in one to three weeks. In a few cases, the infected cow or calf will pass dark, red-colored urine and for this reason the disease has also been called "red water disease".

This LAST sign is usually present only if the animal is rather severely sick, with death often occurring in these cases. A "blood test" similar to that performed in the diagnosis of brucellosis (Bang's Disease), is also used in the case of "lepto". This test is frequently employed by veterinarians when there is any question as to the presence of "lepto".

Abortion is one of the important clinical signs of this disease. Leptospirosis probably ranks close to brucellosis as a recognized cause of abortion in cattle in Ohio.

It is very common for a cow to lose her calf two or three weeks after the alert dairyman has first noticed her sick. She usually does not appear sick at the time of abortion. Especially among heifers and beef cows, abortion may be the only clinical sign observed by the herdsman.

"Lepto" is spread from one animal to another by way of urine. The organism causing "lepto" tends to become localized in the kidneys of infected cattle and then is passed in the urine, possibly for as long as three months. Fortunately, the "lepto" organism is readily killed upon drying, but may remain alive for some time in a moist environment or in surface water. Swine affected with this disease may also serve as a source of infection to cattle. Swine usually show no signs of illness except possibly abortion.

A considerable number of swine in Ohio have been found infected with "lepto". It is believed that small streams and creeks play an important role in transmitting the disease from one farm to another.

An immunizing agent has recently been made available which is of value in preventing "lepto" in cattle and swine. This product is a killed suspension of "lepto" organisms.

In Washington D.C., two 4-H alumni—a man and a woman—will join six 4-H'ers chosen to represent more than two million members in ceremonies commemorating Club Week. They will also accompany the young people to the White House where the 4-H report to the nation will be presented to President Eisenhower along with a personal gift from 4-H'ers everywhere.

4-H Club News

Duvall Busy Fingers

By Sandy Stover
The second meeting of the Duvall Busy Fingers was held recently at Duvall School.

The meeting was opened by the pledge to the American 4-H flags by Janet Stover. The treasurer gave her report.

Carol Baum, Marty Dore, Janet Stover, and Susan Milson were named to the committee chosen for the 4-H display.

New officers elected were Carol Hickman, president; Velma Alice Kuhn, vice president; Janet Ross, secretary; Marilyn Hay, treasurer.

Sandy Stover, news reporter; Linda Baum, health leader; Judy Ross, safety leader; Sandra Mayberry and Marilyn Younkin, recreation leader.

There were 20 girls, six mothers and two advisors present. The meeting was closed by Kathy Campbell leading us with The Lord's Prayer.

The Jackson Livestock club met recently in the school. There were 19 members present.

Officers elected were Judy Hinton, president; Marvin Young, vice-president; Linda Hinton, secretary; Barbara Diffendal, treasurer.

Rose Marie Good, news reporter; Patty Downs, safety director; Martha Chester, health leader; Sonny Chester and Gary Thompson, recreation leaders.

Advisors are Eugene Hinton, Paul Thompson, John Diffendal and Harold Gibson.

months. Penicillin and streptomycin are commonly used in treating infected cattle.

HOWEVER, very few untreated animals actually die from the disease unless they show blood-colored urine. Proper treatment reduces the duration of illness and will tend to save those animals that are severely sick. Streptomycin, and certain other antibiotics, when given in correct dosages will kill the "lepto" organisms which have become localized in the kidney, and thus these animals may no longer serve as a source of infection to other animals or humans.

Although man can become infected with "lepto" (*Leptospira pomona*) from contact with infected cattle and swine, this will occur only rarely under usual farm practices.

Most of the human cases that have occurred have been traced either to swimming in ponds or streams that have been contaminated with the urine of infected animals, or to some intimate contact with the urine of infected animals.

The disease in humans has usually been mild with no fatal cases having been reported. The "lepto" organisms may be found in the milk of cows for a few days following infection, but they will be killed upon pasteurization. Also, I know of no human case that has arisen from the drinking of milk.

The United States Department of Agriculture has recently attempted to evaluate the economic importance of "lepto" in cattle and has estimated that it is the third most important infectious disease in cattle, causing even more loss than brucellosis, and being preceded only by mastitis and vibriosis.

The members voted to retain the same name, same amount of dues, and to serve light refreshments. We decided to meet every other week on Tuesday evening at 7 p.m. beginning February 10.

Adviser for the year is Mrs. Hannah Peters.

Any girls wishing to join are invited to the February 10 meeting or February 24 meeting. Meetings will be held at the St. Paul Parish Hall.

Duvall Go Getters

Soybean Growers May Obtain Farm Storage Loans

Clarence Cunningham gave a speech on 4-H work. After the meeting there was recreation. The next meeting will be Tuesday.

By CLARENCE J. CUNNINGHAM
Extension Agent, 4-H

The first year 4-H tractor club is organizing and starting on its first lesson on Wednesday, February 25. This is last chance to get started in this first year club under leader Frank Land.

Lands has announced that at the meeting will be held at the Farm Bureau Cooperative on West Mound Street in Circleville starting at 8 p.m. All boys who are interested in 4-H tractors are invited to join, providing they are 14 years-old and have a tractor at home which they can service between meetings.

The 4-H tractor program stresses safety, care, and maintenance of the farm tractor. In addition to learning about tractors, the club member can participate in the county tractor operators contest with the possibility of eventually participating in the regional contest.

Eligibility requirements under the reseal program will be the same for quality and storage as under the original loans.

The 4-H Junior Leadership banquet and dance is scheduled for March 21. All junior leaders who completed the 1958 year are urged to remember this date.

Interested in electricity? Marion Mowery who is an adviser, invites you to join a first year 4-H electric club starting on March 11 (Wednesday).

During your first year learn about how electric works and how to work with it. You will make a toy motor, electric lamp, test lamp, and extension cord in this club year. In addition you may participate in many other 4-H activities.

Anyone is welcome to join between the ages of 10-20. Plan to come to the first meeting of the club on March 11 at the South Central REA on E. Franklin St. The meeting starts at 7:30 p.m.

MADISON MERRY MAIDS

The Madison Merry Maids 4-H Club met February 1, at the Madison Township School building to re-organize and elect officers for the coming year. The business meeting was in charge of the past president, Sylvia Sherman. Officers elected were as follows: president — Armina Sherman; vice-president — Clesta Miller; secretary — Sandie Porter; treasurer — Bonnie Canfield; reporter — Miriam Tegtmeir; recreation leaders — Barbara Brown and Joan Tegtmeier.

Other members are Sallie Fornson, Wilma Weesner and Jane Richards.

The members voted to retain the same name, same amount of dues, and to serve light refreshments. We decided to meet every other week on Tuesday evening at 7 p.m. beginning February 10.

Adviser for the year is Mrs. Hannah Peters.

Any girls wishing to join are invited to the February 10 meeting or February 24 meeting. Meetings will be held at the St. Paul Parish Hall.

Duvall Go Getters

By Kathy Courtright

The third meeting of the Duvall Go Getters was held February 9.

February is a patriotic month so why not use cherries in your meals this month. Miss Pauline Gruner, extension nutrition specialist at the Ohio State University, suggests using cherries in your favorite salad. It might be gelatin salad with vegetables, nuts and cherries, or a cherry juice for a fruit beverage.

Cupid's cocktail is an appropriate February beverage. Mix two cups cherry juice, 1½ cups orange juice, ¼ cup lemon juice, and two cups water and chill. Add sugar if desired. Just before serving add one quart gingerale. This will make about 12 six-ounce servings.

They may also convert their soybean purchase agreements to loans for another year following the price-support loan maturity date of May 31, 1959. A storage payment of 16 or 17 cents per bushel will be earned by farmers for the period of resale.

eligibility requirements under the reseal program will be the same for quality and storage as under the original loans.

Steelyard said the Department of Agricultural is offering a reseal program on soybeans for the first time because of the heavier supplies of beans now moving under support from the record of 1958 crop and the heavy demand being placed on storage by record supplies of grain.

The program is being announced early, he said, in order to give farmers more time in which to make their storage plans for the coming year.

During your first year learn about how electric works and how to work with it. You will make a toy motor, electric lamp, test lamp, and extension cord in this club year. In addition you may participate in many other 4-H activities.

Anyons is welcome to join between the ages of 10-20. Plan to come to the first meeting of the club on March 11 at the South Central REA on E. Franklin St. The meeting starts at 7:30 p.m.

By GEORGE HAMRICK
County Extension Agent,
Agriculture

There have been in recent years many new oats varieties developed. Each of these new varieties must be carefully evaluated for adaptation and superiority in performance under our growing conditions.

The following described oat varieties have been recommended and proven to be consistent in producing high yields combined with acceptable bushel weight, straw strength, disease resistance and grain quality.

Ajax produces high yields of large white grain in areas in which relatively late maturity and medium tall straw is desired. Compared to other recommended varieties, Ajax is lightest in bushel weight and most susceptible to lodging.

Clarion is widely adapted in Ohio and produces high yields of heavy, plump, yellow kernels. Clarion is somewhat tolerant to diseases, and exhibits good straw strength.

CLINTLAND is the most resistant of the recommended oat varieties to the races of crown rust occurring in Ohio. Medium early in maturity, Clintland has stiff straw and produces high quality yellow kernels of excellent bushel weight.

Clinton 59 lacks resistance to crown rust but is otherwise identical to Clintland for yield, bushel weight, and other agronomic characteristics. When crown rust infection is heavy, Clinton 59 is inferior for yield, straw strength and grain quality.

Rodney oats matures about one week later than Clintland and provides high yields of large, white kernels and tall, stiff straw.

These five varieties have been proven and have been found successful. Many other varieties are available but most of them have not been recommended for one reason or another.

The latest extension publication, "Crop Varieties and Crop Hybrids," contains the latest developments in most of the farm crops. This bulletin may be secured by request at the Agriculture Extension Service Office at 1590 East Main Street.

Topics and speakers of the 2 to 3:30 program will include: "If You Watch Your Weight," Mildred Arnold, American Institute of Bak- ing; "Good Grooming for Floors," Dr. Elaine Weaver, household equipment research, and Dorothy Lawrence, Extension housing and furnishings specialist; and "This Business of Baby Sitting—at Home and Elsewhere". Helene Heye, chairman of Family and Child Development Division of School of Home Economics, and Lucile Peppen, Extension family life specialist.

A DEMONSTRATION showing energy expenditure in household tasks will be conducted at 3 p.m. in Townshend Hall by Mrs. Marjorie Keiser, research assistant in Home Economics.

Exhibits relating to home economics subjects will be on display during the day, and open house in Campbell Hall will be observed from 9:15 to 10 each morning.

Farm, Home Week Slated At Ohio State

Farm and Home Week, March 24, 25, and 26 on the Ohio State University campus, will include home economics topics of interest to women.

Tuesday, March 24, will feature Miss Nelle Watts, former state leader of the Home Economics Extension. She will discuss her experiences abroad, using the topic "Homemakers in Other Countries Look Ahead".

Homemakers also may hear a discussion of "Ohio Families Look Ahead—Financially", by members of a symposium including Miss Ruth Deacon, family economics research; Dr. Christine Newark, chairman of Home Management Division of the School of Home Economics; and Miss Mabel Spray, family economics Extension specialist. This program will be presented from 10 a.m. to 12 noon in the Campbell Hall auditorium.

Topics and speakers of the 2 to 3:30 program will include: "If You Watch Your Weight," Mildred Arnold, American Institute of Bak- ing; "Good Grooming for Floors," Dr. Elaine Weaver, household equipment research, and Dorothy Lawrence, Extension housing and furnishings specialist; and "This Business of Baby Sitting—at Home and Elsewhere". 4-H Has Large Alumni Group

If all of the men and women in the United States who were once 4-H club members stood shoulder-to-shoulder they would reach from Washington D.C. to Easter Island in the South Pacific—nearly 6,000 miles as the jet flies.

These 4-H alumni now number some 20 million, according to the Cooperative Extension Service, and special tribute will be paid to them during National 4-H Club Week, February 28—March 7, in the nation's capitol.

"Salute to 4-H Alumni" is the slogan that will be echoed throughout the 49 states, Hawaii and Puerto Rico, during that week. Emphasis will be on the national 4-H Alumni Recognition program which is designed to honor outstanding men and women who have continued to live by their 4-H ideals.

In Washington D.C., two 4-H alumni—a man and a woman—will join six 4-H'ers chosen to represent more than two million members in ceremonies commemorating Club Week. They will also accompany the young people to the White House where the 4-H report to the nation will be presented to President Eisenhower along with a personal gift from 4-H'ers everywhere.

He was before the Senate Agriculture Committee, plugging the administration's program for the farm law changes that would cut government costs and give farmers more freedom to produce.

And as he did in testimony last week to the House Agriculture Committee, Benson contended this is needed to fight inflation.

Benson said most of agriculture is free of controls and attempts at price fixing at what he called unrealistic levels.

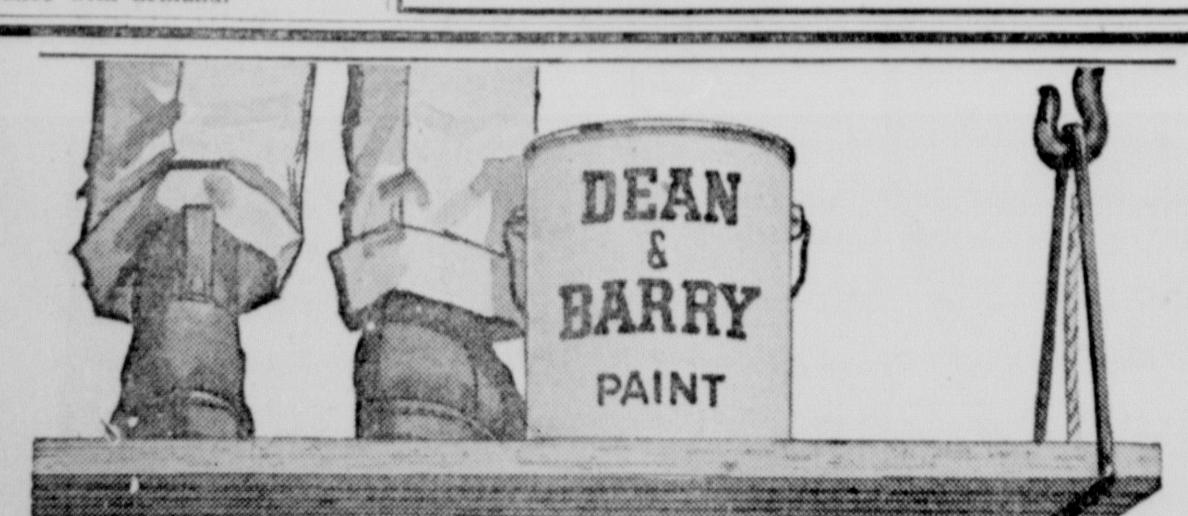

"This part of agriculture is doing reasonably well," he said. "Its markets are expanding and production is kept in reasonable balance with demand."

Lepo Found In Ohio Cattle

Sick Cows Show Several Symptoms

A newly recognized disease of cattle has been observed in Ohio. The name of the disease is leptospirosis, which for convenience has often been shortened and called by the name, "lepto".

Although this disease was first detected in Ohio in 1951, there is reason to believe that it has been present for some time. It is rather widespread at the present time, probably five per cent of the cattle in Ohio have been infected with this disease. Not only can it affect cattle, but also swine, horses, sheep, various wild animals and man.

A cow or calf sick with "lepto" may show a variety of symptoms and for this reason it is often difficult to make an accurate diagnosis of this disease. The attention of the dairyman may first be attracted to a cow showing loss of appetite with an abrupt drop in milk and production. The udder will usually be soft and flabby with the milk thickened and in some cases blood-tinged.

The Jackson Livestock club met recently in the school. There were 19 members present. Officers elected were Judy Hinton, president; Marvin Young, vice-president; Linda Hinton, secretary; Barbara Diffendal, treasurer.

Rose Marie Good, news reporter; Patty Downs, safety director; Martha Chester, health leader; Sonny Chester and Gary Thompson, recreation leaders.

Advisors are Eugene Hinton, Paul Thompson, John Diffendal and Harold Gibson.

months. Penicillin and streptomycin are commonly used in treating infected cattle.

HOWEVER, very few untreated animals actually die from the disease unless they show blood-colored urine. Proper treatment reduces the duration of illness and will tend to save those animals that are severely sick. Streptomycin, and certain other antibiotics, when given in correct dosages will kill the "lepto" organisms which have become localized in the kidney, and thus these animals may no longer serve as a source of infection to other animals or humans.

Abortion is one of the important clinical signs of this disease. Leptospirosis probably ranks close to brucellosis as a recognized cause of abortion in cattle in Ohio.

It is very common for a cow to lose her calf two or three weeks after the alert dairyman has first noticed her sick. She usually does not appear sick at the time of abortion. Especially among heifers and beef cows, abortion may be the only clinical sign observed by the herdsman.

"Lepto" is spread from one animal to another by way of urine.

The organism causing "lepto" tends to become localized in the kidneys of infected cattle and then is passed in the urine, possibly for as long as three months. Fortunately, the "lepto" organism is readily killed upon drying, but may remain alive for some time in a moist environment or in surface water.

Swine affected with this disease may also serve as a source of infection to cattle. Swine usually show no signs of illness except possibly abortion.

A considerable number of swine in Ohio have been found infected with "lepto".

It is believed that small streams and creeks play an important role in transmitting the disease from one farm to another.

An immunizing agent has recently been made available which is of value in preventing "lepto" in cattle and swine. This product is a killed suspension of "lepto" organisms.

Most veterinarians will recommend that all the cattle in the herd be immunized as soon as a diagnosis is made. Also, if there is any reason to believe that cattle may be exposed to the disease, immunization should be considered.

Recent information would indicate that properly immunized animals should be protected for at least 12

CHS Tops Wilmington Five, 63-49

Rowland Hits 25 To Pace Tigers

Coach Dick Snouffer's Circleville cagers continued their mastery on the home floor last night by downing the visiting Hurricanes of Wilmington, 63-49.

It was a cherished measure of revenge for the Tigers who suffered a disastrous 52-36 loss at Wilmington earlier in the season. The win was even sweeter in that the Hurricane breezed into town owning first place in the South Central Ohio League.

Wilmington still is in the league's top spot with a 7-2 record, but Circleville gained some pleasant satisfaction in trouncing the team which probably will win the loop. A victory over Franklin Heights will give the Hurricane undisputed possession of first place in the SCOL.

Paced by the sharpshooting of Captain Don Rowland from out front and Larry Hannahs underneath, the Tigers commanded a lead from the opening tip-off until the last buzzer. The final outcome appeared doubtful at times, but the early smell of victory remained intact for the upset-minded Tigers.

CIRCLEVILLE stormed to a 6-0 lead before Wilmington checked in with its first point, then reached a full head of steam as Rowland wowed spectators with three straight long ones to give CHS a 14-8 margin as the quarter ended.

Wilmington, employing its dreaded pressing defense, came to life in the second quarter as Dave Nared and Jim Kidd suddenly found the range to narrow the count to 26-23 as the first half came to an end. Each of the Hurricane cagers collected six points in this canto.

Rowland, topping all scorers for the evening with 25 points, opened the third quarter with a sizzling long shot to give an indication that plenty of action was yet to come.

Nared grabbed scoring honors for Wilmington with 16 points, most of his buckets coming on accurate one-hand jump shots.

Keith Gregory followed with 10.

Circleville fired a torrid 41 per cent from the field, netting 24 buckets in 58 attempts. Wilmington ended with 30 per cent, the result of 20 goals on 66 tries.

The Tigers collected 15 of 28 free throws and Wilmington netted nine of 12.

The CHS Kittens fashioned a strong rally in the third quarter, but lost the pace in the final chapter to drop a 43-32 decision to the Hurricane yearlings.

Sam Weller spearheaded the Kittens with 16 points and Jim Wellington fired for 12, one of his buckets coming from about mid-court just as the third period buzzer sounded. Porter led the winners with 21 tallies.

The Tigers wind up regular season play Friday with a trip to London. Then comes the big test Saturday night, a Central District Tournament game with London.

The tourney tilt will be played at the State Fairgrounds Coliseum in Columbus.

pointer from underneath to narrow Circleville's lead to 48-40.

AT THIS point, Hannahs took personal command for the Tigers by sinking three straight buckets to put CHS out front, 54-40. As the final minutes were ticking away, Rowland potted a long shot, Elsea a jump shot and Bailey climaxed the evening with two drives.

Rowland's top scoring performance received valuable assistance from Hannahs who jumped and faded his way to 19 points, along with some dependable rebounding. Bailey, ball-hawking in fine style, also found time to register 13 points.

Elsea, still recuperating from illness last week, wound up with four points and dependable floor man Cal Ellis came through with two.

Nared grabbed scoring honors for Wilmington with 16 points, most of his buckets coming on accurate one-hand jump shots.

Keith Gregory followed with 10.

CHS Tops Wilmington Five, 63-49

Rowland Hits 25 To Pace Tigers

Coach Dick Snouffer's Circleville cagers continued their mastery on the home floor last night by downing the visiting Hurricane of Wilmington, 63-49.

It was a cherished measure of revenge for the Tigers who suffered a disastrous 52-36 loss at Wilmington earlier in the season. The win was even sweeter in that the Hurricane breezed into town owning first place in the South Central Ohio League.

Wilmington still is in the league's top spot with a 7-2 record, but Circleville gained some pleasant satisfaction in trouncing the team which probably will win the loop. A victory over Franklin Heights will give the Hurricane undisputed possession of first place in the SCOL.

Paced by the sharpshooting of Captain Don Rowland from out front and Larry Hannahs underneath, the Tigers commanded a lead from the opening tip-off until the last buzzer. The final outcome appeared doubtful at times, but the early smell of victory remained intact for the upset-minded Tigers.

CIRCLEVILLE stormed to a 6-0 lead before Wilmington checked in with its first point, then reached a full head of steam as Rowland wowed spectators with three straight long ones to give CHS a 14-8 margin as the quarter ended.

Wilmington, employing its dreaded pressing defense, came to life in the second quarter as Dave Nared and Jim Kidd suddenly found the range to narrow the count to 26-23 as the first half came to an end. Each of the Hurricane cagers collected six points in this canto.

Rowland, topping all scorers for the evening with 25 points, opened the third quarter with a sizzling long shot to give an indication that plenty of action was yet to come. Rowland, Hannahs, Jake Bailey and Asa Elsea hit with precise regularity during the next few minutes, but so did Nared of Wilmington. After the smoke cleared away at the end of this chapter, the locals still owned a debatable 45-34 lead.

The fourth quarter turned out to be a rough and tumble affair, with Circleville determined to take the wind out of the Hurricane and Wilmington bound to protect its league leadership prestige.

Numerous fouls were called on both teams during this stanza and one Wilmington player was ejected from the game for giving Bailey what appeared to be an intentional hit.

The nearest Wilmington could get in the final chapter came with about four minutes remaining when Steve Smith dunked a two-

Big 'O' Chalks Scoring Mark For Cincinnati

Robertson Nets 43 Points as Bearcats Smother Miami Quint

By THE ASSOCIATED PRESS

It has taken the greatest per game pace in major college basketball history to do it, but Oscar Robertson has shattered in less than two seasons Cincinnati's scoring record it took a fine player named Jack Twyman four years to set.

The brilliant Bearcat came off a 10-day rest with a 43-point haul Tuesday night as streaking Cincinnati overwhelmed Miami of Ohio 102-73. Robertson now has scored 1,612 points in 47 games compared to the old Cincinnati school record of 1,598 set in 96 games by Twyman, now a star of the professional Cincinnati Royals, from 1951 through 1955.

Elsea, still recuperating from illness last week, wound up with four points and dependable floor man Cal Ellis came through with two.

Nared grabbed scoring honors for Wilmington with 16 points, most of his buckets coming on accurate one-hand jump shots.

Keith Gregory followed with 10.

The Big O has been traveling at a 34.3 per game pace since he made the Bearcats an overnight national power last season. It is the fastest pace in major school history, approached only by former Furman ace Frank Selby's 32.5 career average.

THE CHS Kittens fashioned a strong rally in the third quarter, but lost the pace in the final chapter to drop a 43-32 decision to the Hurricane yearlings.

Sam Weller spearheaded the Kittens with 16 points and Jim Wellington fired for 12, one of his buckets coming from mid-court just as the third period buzzer sounded. Porter led the winners with 21 tallies.

The Tigers wind up regular season play Friday with a trip to Logan. Then comes the big test Saturday night, a Central District Tournament game with London.

The tourney tilt will be played at the State Fairgrounds Coliseum in Columbus.

Kirkland Ready For Giants Play

PHOENIX (AP) — Willie Kirkland strode through the gate as the San Francisco Giants opened training with the declaration, "I sure want to swing that stick."

The schedule didn't call for any batting but Kirkland did get a chance to hit just after the drill ended.

He promptly parked the first pitch of the 1959 training season over the right field fence.

One of the most heralded rookies of last season, Kirkland didn't live up to expectations as he batted .258 including 14 home runs. For one stretch he was sent down to Phoenix of the Pacific Coast League.

Lew Hoad Trips Gonzales in Opener

HONOLULU (AP) — Lew Hoad defeated veteran Pancho Gonzales 64-61, Tuesday night to open the American tour of Jack Kramer's professional tennis troupe.

Mal Anderson bested Ashley Cooper, 5-6, 6-5, 6-3 in the second singles match. Under pro scoring, the first two sets are won by the player winning six games first.

The troupe leaves today for San Francisco where the matches are set for Friday.

BUCKY'S BOY—Dick Harris, 25-year-old son of Bucky Harris, now general manager of the Boston Red Sox, will seek to make the grade with the Washington club as a second sacker this year. Dick batted .256 for Charlotte in minors last year.

Goal of Senators: Just Finish .500

By COOKE LAVAGETTO
Washington Senators

ORINDA, Calif. (AP) — The 1959 goal for the Washington Senators is to finish with at least a .500 season.

Since the close of the 1958 year we have made a couple of trades and we will have several good rookies in spring training. I am hopeful there will be more changes by trade before the season opens. One thing is sure, there'll be a definite emphasis on the "new look" this year.

We are not going to be pushed over this year.

It's too early to name a starting lineup. The way I see things now, though, Reno Bertola and Ron Samford should bolster the defense on the left side of our infield. Samford will play short and Bertola third.

J. W. Porter, who looks like a big league hitter to me, can play first, third or catch.

Jim Delsing, obtained with Bertola and Samford from the Tigers, will get a crack at playing center field regularly. If he can't, he should help our bench. Little Albie Pearson, our rookie of the year, will be in there some place, center

or right field.

Our big guy, of course, is still Roy Sievers, who hit 39 home runs and knocked in 108 runs. With Sievers, Jim Lemon, who hit 26 homers, Norm Zauchin, 15 homers, and catcher Clint Courtney, eight homers, we have a pretty good nucleus of long ball hitters.

Some of the newcomers with a chance to make the club are Bob Allison, John Schaeve, Angel Oliva and Harmon Killebrew. Allison is a king-sized 24-year-old center fielder who hit .307 at Chattanooga in the Southern Assn.

Schaeve will get a chance at second base after a .295 season at Chattanooga. Oliva is a 21-year-old right-handed relief specialist who worked 62 games for Chattanooga and had an ERA of 0.75 in the Cuban Winter League this season. Killebrew was up before.

We have good pitching. Pete Ramos and Camilo Pasqual are getting better each year. Dick Hyde is the league's best relief pitcher. Tex Clevenger has become a top reliever, too. Russ Kemmerer should be better. So should Vito Valentini and Bill Fischer.

Dear Abby...

By Abigail VanBuren

She's Loaded with Brass

DEAR ABBY: The woman who is on my party line listens in on all my calls. I was never so mad in all my life as this morning. A friend of mine called and asked me if I had the address of a certain woman who belonged to our church group a few years ago and moved to North Carolina. I said I had it on my Christmas card list and would get it for her. This other woman who was listening in butted in and said, "Wait a minute until I get a pencil, I'd like to have it, too." Now, Abby, what would you do about a problem like mine? DUMBOUNDED

DEAR DUMB: If Uncle Sam ever needs brass she could scrap herself and make a fortune.

DEAR ABBY: Please help me make the most important decision of my whole life. I have a wonderful boyfriend who has asked me to marry him and my answer would be YES excepting that he has one bad trait. First let me tell you about his good points. He is tall, well-built, an ex-University football player. He has a degree in Engineering and is an executive in a construction company. He has a deep interest in home life and is devout in his religion. He is kind, honest, sincere and does not drink or gamble. BUT, he brags.

DISTURBED

DEAR DISTURBED: I think he has something to brag about. Say yes?

DEAR ABBY: I am a boy of 14 and where I live there aren't any girls to do baby-sitting so all the women call on me. When my friends ask me where I have been some night, and I tell them I was "baby-sitting", they say that's for girls. Do you think I should quit sitting? I need the money, but don't want people to tease me about it.

BOY SITTER

DEAR BOY: A "baby-sitter" is simply a responsible person who can look after youngsters and there's no reason why a boy can't do it as well as a girl. Keep sitting and hatch a little income.

CONFIDENTIAL TO PHILOSO-PHER: The most rewarding use of life is to spend it for something that outlasts it.

Councilmen Boost Radcliff Salary

City Council last night boosted the salary of Service Director Carl Radcliff to \$4,400 a year—a \$1,000 increase.

The ordinance was passed by a narrow 4-3 margin. Councilmen D. J. Carpenter, John Jenkins and Boyd Horn voting against the pay boost.

At the same session the solons OK'd an ordinance authorizing the service director to advertise for bids for the purchase of gasoline

Ike Leaving For Visit to Old Mexico

WASHINGTON (AP)—President Eisenhower takes off today for Austin, Tex., on the first leg of a good will mission to Mexico for informal talks with President Adolfo Lopez Mateos.

Eisenhower arranged a morning news conference and scheduled departure aboard his private plane, Columbine III, for 2:45 p.m. EST. He is due to arrive at Bergstrom Air Force Base at Austin at 7:30 p.m. CST.

Eisenhower will spend the night at Bergstrom, then take off at 6 a.m. Thursday on a four-hour flight to Acapulco, Mexico's tropical resort on the Pacific Ocean. The President plans a two-day stay.

This will be the first meeting of Eisenhower and Lopez Mateos, who took office last December. They have arranged talks aboard the Mexican president's yacht Thursday and at Eisenhower's Acapulco hotel, the plush Pierre Marques, Friday.

But administration officials report there are no major United States-Mexican problems to occupy the two chief executives, and that the principal purpose of the visit is to give them a leisurely opportunity to get acquainted.

The President will be accompanied by his youngest brother, Dr. Milton S. Eisenhower, a top adviser on Latin American affairs. Others in his party are the President's son, Army Maj. John Eisenhower, a White House aide; Roy R. Rubottom, assistant secretary of state for inter-American affairs; and Mexico's ambassador to the United States, Antonio Carillo Flores.

Present plans call for Eisenhower to leave Acapulco by plane Friday night for Augusta, Ga., and a weekend of golf.

Businessmen Cautious on U.S. Economy

Durable Goods Men Say Recovery Slow, But Lack Pessimism

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — With the first quarter of 1959 at the half way mark many businessmen are taking a more cautious look at the economy today than a month ago.

In other action the lawmakers authorized Mayor Ben H. Gordon and the newly-organized Park Commission to grant an easement to the Columbus and Southern Ohio Electric Co. to install power lines to the new Leatherwood swimming pool, just south of the park. The easement will be 10 feet wide and 500 feet long and will allow placement of two poles, one near the restrooms and another near the fence at the south side of the park.

Councilman Joseph Bell asked City Solicitor Robert Huffer to prepare legislation which would allow the city to rent a road grader to repair streets.

Newspapers Given Views Of Judge

CLEVELAND (AP) — Probate Judge Frank J. Merrick pulled no punches in telling some 700 newspapermen and women what he thought of newspapers.

Addressing the 20th annual awards luncheon Tuesday, the judge said Cleveland's daily newspapers are in a "dirty business" and profiting on printed smut and hypocrisy.

Fifty-five newspapermen and women won awards for outstanding work in 1958, 17 on the Cleveland News, 15 on the Cleveland Plain Dealer and 19 on the Cleveland Press.

Merrick said it was during the famous circulation war between the old Leader-News and the Plain Dealer before World War I that he began to wonder whether newspapers were so pure as he had believed.

"The newspapers were the first to bring hired thugs to Cleveland," he said. "And they stayed here."

He said public officials dislike newspapers because of their "unfair criticism" and because they deign to "pre-try cases and pass judgment."

Merrick observed that most of those affiliated with newspapers are "clean people," but added that "if we judges, lawyers and newspapermen cannot get together it will be a bad day for the country."

Sohio, Powder Firm Form New Company

COLUMBUS, Ohio (AP)—Five business firms and four company officers entered innocent pleas in U.S. District Court here Tuesday to charges of conspiring to fix prices and eliminate competition in the sale of hand tools.

The companies which entered the pleas are the Union Fork and Hoe Co. of Columbus; The McDonough Co., Parkersburg, W. Va.; True Temper Corp., Cleveland; Borg-Warner Corp., Chicago, and the Wood and Shovel Co., Piqua.

The four officers are John T. Mains of Greenfield, vice president of Union Fork and Hoe; F. Bliss Winn, Parkersburg, W. Va., vice president of the McDonough Co.; Robert R. Raymond of Cleveland, vice president of True Temper Corp., and William G. Rector of Chagrin Falls, president of True Temper.

Most of all this adds up to a pleasant picture. It's just that the ardor with which some were predicting a new boom starting this spring is tending to change to caution.

The Ashville American Legion Auxiliary made 37 valentines and placed a handkerchief in each one to be presented to the folks at the Pickaway County Home for the Aged. Much credit goes to Mrs. Emerson Dum and Mrs. Eugene Wilson for their time given to this project.

Miss Rebecca Stout, daughter of Mr. and Mrs. Stanley Stout, underwent a tonsillectomy at White Cross Hospital Monday morning. Becky is a third grade student at Ashville Elementary School.

The Bastian Funeral Home made the following ambulance runs this past week: Monday, Feb. 9, returned James Martin to his home from White Cross Hospital; and Thursday, Feb. 12 took Mrs. Flora Bastian to Mercy Hospital and returned Mrs. Homer Bausum home from the same hospital.

A few trumpet and cornet students from the Ashville, South Bloomfield, and Duval Schools attended the Lima State University

Ashville News Report

By Mrs. Art Deal Jr.

Girl Scout Thinking Day will be observed Sunday, Feb. 22 at 2 p.m. in the Ashville High School Auditorium. All parents and friends are invited to attend. The program will be given by the scout members.

The Varsity A Club of the Ashville-Harrison High School will present its annual "Variety Show," at 8 p.m. Friday, Feb. 27, in the school auditorium under the direction of Mrs. Jim Courtright. Interested students still have time to register in the main office of the high school building. Prizes will be awarded as follows: First—\$10, Second—\$5, Third—\$2.50. All proceeds will go to the Athletic Department. There will be a slight admission charge.

Mrs. Horner Bausum, Mrs. Glen Klopfenstein, and Claude Nothn have returned to their homes from the hospital, and are reported to be improving daily.

Mr. and Mrs. Eugene Wilson are parents of a daughter born Sunday morning in Berger Hospital. The baby weighed a little over 5 pounds and has been named Judith Ann.

The Young Married Couples Class of the Evangelical United Brethren Church met with its teacher, Dolph Remey, Monday evening in the church basement for an evening of fun. A treasure hunt was enjoyed by all. Hostesses for the evening were Mr. and Mrs. Bob Shobe.

BOB WALDEN, Long St., has reentered White Cross Hospital for further observation. He is room 126.

The February meeting of the Ashville Community Club will be at 7:30 p.m. Monday in the Community Shelter House. Richard Bozman, president, will set off the membership campaign for this year. The goal is 100 members.

Heading the program up will be Dwight Radcliff, from the Pickaway County Sheriff's office, who will show colored and black and white slides of auto accidents in the county and tell of their happenings. Door prizes will be given at the end of the meeting.

Refreshments will be served by the following committee: Donald Thompson, Dale Schiff and Warren Bastian.

The Ashville American Legion Auxiliary made 37 valentines and placed a handkerchief in each one to be presented to the folks at the Pickaway County Home for the Aged. Much credit goes to Mrs. Emerson Dum and Mrs. Eugene Wilson for their time given to this project.

Miss Rebecca Stout, daughter of Mr. and Mrs. Stanley Stout, underwent a tonsillectomy at White Cross Hospital Monday morning. Becky is a third grade student at Ashville Elementary School.

The Bastian Funeral Home made the following ambulance runs this past week: Monday, Feb. 9, returned James Martin to his home from White Cross Hospital; and Thursday, Feb. 12 took Mrs. Flora Bastian to Mercy Hospital and returned Mrs. Homer Bausum home from the same hospital.

A few trumpet and cornet students from the Ashville, South Bloomfield, and Duval Schools attended the Lima State University

Councilmen Boost Radcliff Salary

City Council last night boosted the salary of Service Director Carl Radcliff to \$4,400 a year—a \$1,000 increase.

The ordinance was passed by a narrow 4-3 margin. Councilmen D. J. Carpenter, John Jenkins and Boyd Horn voting against the pay boost.

At the same session the solons OK'd an ordinance authorizing the service director to advertise for bids for the purchase of gasoline

Ike Leaving For Visit to Old Mexico

WASHINGTON (AP)—President Eisenhower takes off today for Austin, Tex., on the first leg of a good will mission to Mexico for informal talks with President Adolfo Lopez Mateos.

Eisenhower arranged a morning news conference and scheduled departure aboard his private plane, Columbine III, for 2:45 p.m. EST. He is due to arrive at Bergstrom Air Force Base at Austin at 7:30 p.m., CST.

Eisenhower will spend the night at Bergstrom, then take off at 6 a.m. Thursday on a four-hour flight to Acapulco, Mexico's tropical resort on the Pacific Ocean. The President plans a two-day stay.

This will be the first meeting of Eisenhower and Lopez Mateos, who took office last December. They have arranged talks aboard the Mexican president's yacht Thursday and at Eisenhowers' Acapulco hotel, the plush Pierre Marques, Friday.

But administration officials report there are no major United States-Mexican problems to occupy the two chief executives, and that the principal purpose of the visit is to give them a leisurely opportunity to get acquainted.

The President will be accompanied by his youngest brother, Dr. Milton S. Eisenhower, a top adviser on Latin American affairs. Others in his party are the President's son, Army Maj. John Eisenhower, a White House aide; Roy R. Rubottom, assistant secretary of state for inter-American affairs; and Mexico's ambassador to the United States, Antonio Carrillo Flores.

Present plans call for Eisenhower to leave Acapulco by plane Friday night for Augusta, Ga., and a weekend of golf.

Businessmen Cautious on U.S. Economy

Durable Goods Men Say Recovery Slow, But Lack Pessimism

By SAM DAWSON
AP Business News Analyst
NEW YORK (AP) — With the first quarter of 1959 at the half way mark many businessmen are taking a more cautious look at the economy today than a few months back.

In other action the lawmakers authorized Mayor Ben H. Gordon and the newly-organized Park Commission to grant an easement to the Columbus and Southern Ohio Electric Co. to install power lines to the new Leatherwood swimming pool, just south of the park. The easement will be 10 feet wide and 500 feet long and will allow placement of two poles, one near the restrooms and another near the fence at the south side of the park.

Councilman Joseph Bell asked City Solicitor Robert Huffer to prepare legislation which would allow the city to rent a road grader to repair streets.

Newspapers Given Views Of Judge

CLEVELAND (AP) — Probate Judge Frank J. Merrick pulled no punches in telling some 700 newspapermen and women what he thought of newspapers.

Addressing the 20th annual awards luncheon Tuesday, the judge said Cleveland's daily newspapers are in a "dirty business" and profiting on printed smut and hypocrisy.

Fifty-five newspapermen and women won awards for outstanding work in 1958, 17 on the Cleveland News, 15 on the Cleveland Plain Dealer and 19 on the Cleveland Press.

Merrick said it was during the famous circulation war between the old Leader-News and the Plain Dealer before World War I that he began to wonder whether newspapers were so pure as he had believed.

"The newspapers were the first to bring hired thugs to Cleveland," he said. "And they stayed here."

He said public officials dislike newspapers because of their "unfair criticism" and because they deign to "pre-try cases and pass judgment."

Merrick observed that most of those affiliated with newspapers are "clean people," but added that "if we judges, lawyers and newspapermen cannot get together it will be a bad day for the country."

Sohio, Powder Firm Form New Company

CLEVELAND (AP) — Five business firms and four company officers entered innocent pleas in U.S. District Court here Tuesday to charges of conspiring to fix prices and eliminate competition in the sale of hand tools.

The companies which entered the pleas are the Union Fork and Hoe Co. of Columbus; The McDonough Co., Parkersburg, W. Va.; True Temper Corp., Cleveland; Borg-Warner Corp., Chicago, and the Wood and Shovel Co., Piqua.

The four officers are John T. Mains of Greenfield, vice president of Union Fork and Hoe; F. Bliss Winn, Parkersburg, W. Va., vice president of the McDonough Co.; Robert R. Raymond of Cleveland, vice president of True Temper Corp., and William G. Rector of Chagrin Falls, president of True Temper.

A few trumpet and cornet students from the Ashville, South Bloomfield, and Duvall Schools attended the Ohio State University

Medical Mirror

Questions submitted by readers are appreciated and answers to those of general interest will be incorporated in these columns when possible.

Q. "I am an elderly person and have had several attacks of shingles. What is the cause and what can be done?" — Mrs. B.E.

A. Shingles is the common name for herpes zoster, a virus-caused disease which attacks the roots of certain nerves. Blister form on the skin above the virus-injured nerve. The spaces between the ribs are often affected. The blisters break after a time, leaving raw surfaces which scar over and heal slowly. The pain of herpes zoster is especially bothersome in older persons—less so in youngsters. A variety of treatment methods have been used, with good results in some cases—not so good in others. Persons who suffer repeated herpes are sometimes vaccinated with smallpox vaccine. This may stop the attacks when other things have failed. The severe pain and discomfort of herpes zoster can be lessened by use of sedatives and pain-relieving drugs prescribed by the physician.

Q. Just how do viruses cause disease?

A. By affecting tissue cells. One variety of virus can injure nerve

Answers do not necessarily reflect the opinion of all doctors. The diagnosis and treatment of disease is the function of the patient's personal physician. Questions directed to Science Editors, P.O. Box 396, Madison Sq. Sta., N. Y. 10, N. Y. will be incorporated in these columns when possible.

Ashville News Report

By Mrs. Art Deal Jr.

Girl Scout Thinking Day will be observed Sunday, Feb. 22 at 2 p.m. in the Ashville High School Auditorium. All parents and friends are invited to attend. The program will be given by the scout members.

The Varsity Club of the Ashville-Harrison High School will present its annual "Variety Show" at 8 p.m. February 27, in the school auditorium under the direction of Mrs. Jim Courtright. Interested students still have time to register in the main office of the high school building. Prizes will be awarded as follows: First — \$10, Second — \$5, Third — \$2.50. All proceeds will go to the Athletic Department. There will be a slight admission charge.

Mrs. Horner Bausum, Mrs. Glen Klopfenhofer, and Clara de Nothine have returned to their homes from the hospital, and are reported to be improving daily.

Mr. and Mrs. Eugene Wilson are parents of a daughter born Sunday morning in Berger Hospital. The baby weighed a little over 5 pounds and has been named Judith Ann.

The Young Married Couples Class of the Evangelical United Brethren Church met with its teacher, Dolph Remey, Monday evening in the church basement for an evening of fun. A treasure hunt was enjoyed by all. Hostesses for the evening were Mr. and Mrs. Bob Shobe.

For one thing, they count on consumers going on spending freely.

For another, businessmen look to business itself to increase its own spending. Part of this has already started, in the case of inventories, on the rise again after months of trimming.

Steel mills in particular are profiting. Much of their increased output is being consumed.

Business spending for new plants and equipment seems less likely to rise soon.

But if business tends to proceed cautiously now, few industrialists are out and out pessimists. On the contrary, most look for gradually improving business during the first half of 1959 and see a good chance of a marked turnup in activity either at the end of this year or at the start of a new one.

BOB WALDEN, Long St., has reentered White Cross Hospital for further observation. He is in room 126.

The February meeting of the Ashville Community Club will be at 7:30 p.m. Monday in the Community Shelter House. Richard Bozman, president, will set off the membership campaign for this year. The goal is 100 members.

Heading the program will be Dwight Radcliff, from the Pickaway County Sheriff's office, who will show colored and black and white slides of auto accidents in the county and tell of their happenings.

Door prizes will be given at the end of the meeting.

Refreshments will be served by the following committee: Donald Thompson, Dale Schiff and Warren Bastian.

The Ashville American Legion Auxiliary made 37 valentines and placed a handkerchief in each one to be presented to the folks at the Pickaway County Home for the Aged. Much credit goes to Mrs. Emerson Dum and Mrs. Eugene Wilson for their time given to this project.

Miss Rebecca Stout, daughter of Mr. and Mrs. Stanley Stout, underwent a tonsillectomy at White Cross Hospital Monday morning. Becky is a third grade student at Ashville Elementary School.

The Bastian Funeral Home made the following ambulance runs this past week: Monday, Feb. 9, returned James Martin to his home from White Cross Hospital; and Thursday, Feb. 12 took Mrs. Flora Bastian to Mercy Hospital and returned Mrs. Homer Bausum home from the same hospital.

A few trumpet and cornet students from the Ashville, South Bloomfield, and Duvall Schools attended the Ohio State University

Band Concert featuring the famous trumpet soloist, Don Jacoby, Sunday afternoon, Feb. 8, at Meriden Auditorium. Students attending the concert were Marty Young, Bruce Sampson, Andy Ward, Susan Cline, Wilma Rathburn, Billy Fortner, Patsy Welsh, Susan George, Jim Wills, Janet Acord, Monty Sunderland, and David Cooper. Chaperones for the afternoon were Mr. and Mrs. Emerson Cline, Mrs. Charles Young, Mrs. Jim Wills, and William Pangburn.

The Ashville-Harrison PTA will meet at 7:30 p.m. Thursday in the school auditorium. There will be a panel discussion on "Johnny's Problems, Parent's Opinions, and Teacher's Philosophy." All parents, teachers and interested persons of the community are urged to attend and enter in the discussion.

SPRING FLOWERS beautifully decorated the home of Mrs. C. W. Hedges, when she entertained the Solon Garden Club, to a Valentine Tea, Friday afternoon. Mrs. Lulu Owen of Fairborn, presided at the lovely tea table.

Mrs. Harry Trump, club president, conducted the business session with Mrs. James Hott, program chairman, introducing George Hamrick, County Agriculture Agent, as the guest speaker. Hamrick lectured, showed slides and answered many questions from the group which made it not only an interesting, but a worthwhile afternoon.

Mrs. Owen and Mrs. John Koch were assisting hostesses. Mrs. Loy Schiff, a guest, became a new member of the club.
